NEW ROUTE To the Eastern Seaboard!

ONTARIO, SIMCOE & HURON RAILROAD.

THE NEW RAILWAY ROUTE across the Isthmus of Canada, from the foot of the Georgian Bay on Lake Huron, to Toronto, is completed, and a line of Boats, calling at Milwaukee and all the principal Michigan ports, has been chartered to run in connection with it.

The Steamers

KEYSTONE STATE, Captain [illegible], 1,000 tons,
LADY ELGIN, Captain [illegible], 1,300 tons,
QUEEN CITY, Captain Wilkins, 1,200 tons,
NIAGARA, Capt. [illegible], 1,200 tons.

Will form a Tri-Weekly Line between Chicago, Milwaukee and Collingwood, the Northern terminus of the Ontario, Simcoe and Huron Railway, by which passengers will reach New York in Seventy Hours from Chicago, and the Route being so arranged that Night Travel will all be on board First Class Boats, it will form the pleasantest route this side to Eastern Cities.

The attention of Shippers of Freight, and Merchants generally, is especially invited to this Route, as by it shipments from New York will reach Michigan ports in from SIX TO TEN DAYS LESS TIME than by the old Route via the Erie Canal and steam around the Lakes.

Connections will be made with Steamers for Lake Superior and Green Bay.

An Office will be opened in Milwaukee at an early date. Meanwhile information may be had of Messrs. A. T. SPENCER & CO, Chicago, or of the undersigned

INSURANCE OFFICES

WISCONSIN

Home Insurance Office,

No. 6 Kneeland's Block,

MILWAUKEE, WISCONSIN, MARCH 26, 1855.

INSURANCE EFFECTED UPON DWELLING HOUSES, Stores and other Buildings, Household Furniture, Merchandise, and other property, against

LOSS OR DAMAGE BY FIRE.

This is a new Company, organized on the [illegible] last, on the Mutual plan, [illegible] of doing business on the Cash plan, [illegible] of Marine risks; but the present time the business has been confined to the Mutual system of insurance, and the very favorable and flattering manner in which the enterprise has been received by the insuring Public has induced the Directors to make it a partly Mutual Company. [illegible] it is believed that the recent failures of many of the Eastern Companies, has been owing mainly to the combination of the Cash and Mutual Systems in one company.

This Company commenced business with a capital of $100,000, and have already taken [illegible] and it is believed that with proper care in the selection of risks, and rigid economy in expenses, it will soon be enabled to make this Company as safe as any will generally be preferred.

The recent failures of several of the [illegible] Companies, among the most prominent of which are the Protection and Columbia [illegible] business was conducted in the most proper manner [illegible] some of the most reliable and prominent insurance [illegible] safest insurance, and have induced the Directors to believe that the only safe and reliable Companies are those conducted on the Mutual principle.

As it is the design of the Directors to [illegible] rather than a large and therefore doubtful business, [illegible]

Highly Important to Farmers.

The only Exclusive Farmers' Insurance Company in the West.

THE MADISON MUTUAL,

Located at Madison, Wisconsin.

THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, [illegible] all kinds, (belonging to farmers) also Horses, [illegible] live stock, [illegible] lower rates than most other responsible companies.

All losses promptly paid at the office [illegible] made thereon.

We believe it to be for the interest of the farmers to insure by themselves their property, being less hazardous, [illegible] your own of the same class, [illegible] nothing.

Experience has shown that two-thirds if not three-fourths of all the fires that occur are in stores, taverns, mills, shops, and such like property. In this Company all such property is rejected [illegible]

Farmers look to your own interest and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months* we have not had a single *dollar lost* [illegible] a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the Company.

VOLUME XI. MILWAUKEE DAILY SENTINEL. NEW SERIES.

THE DAILY SENTINEL.

Rufus King, Wm. H. Watson & John S. Fillmore, PROPRIETORS,

UNDER THE NAME AND STYLE OF

RUFUS KING & CO.

Saturday Morning, May 19.

Later from Europe.

The U. S. steamship *Baltic* arrived at New York last evening with Liverpool dates to the 5th instant, and news from Sebastopol to 4th—being *fourteen days* only from the Crimea to Milwaukee! She brings important news, commercially, and much intelligence of general interest. Breadstuffs have again largely advanced. Europe is likely to need all that America can spare from her vast harvest.

Sebastopol still stands, while the besiegers stand still. The terrible bombardment has not shaken the well-defended fortress. Great loss of life, and vast expense, are, as yet, the only results of the siege. A new plan of operations begins to be talked of.

The abandonment of the siege grows daily more probable, and a bloody battle between the Russian covering army and the Allies seems impending.

The Emperor Napoleon narrowly escaped assassination on the 28th ult. The Vienna Conferences are ended, and both French and English Commissioners have returned home. Quite full details of the news will be found under the telegraph head.

Lake Shore Railroad.

We have the pleasure of informing our readers that our waiting eyes were greeted last evening by the stout engine *Lake Shore*, bringing up several passengers, whose impatience for a railroad connection would not allow them to wait the two or three days necessary for arranging the passenger trains. Chief Engineer Alton and a posse of his aids, were also on the train and an omnibus—one of Davis' line—was sent down to meet the train at the crossing near Wilcox's.

It certainly is a veritable railroad, and in further evidence of the fact, our Common Council and other invited guests of the Company, will take carriages from the foot of East Water St., at 7 o'clock this morning, and go to the road, and thence proceed, by steam, southwards to witness the welding of the last links in the iron chain which binds our lake cities together.

Of the excursion, and the future arrangements of the Company, more on Monday.

Massachusetts Coming.—Mr. Carpenter, of the Madison *Patriot*, wondering whence come all the travelers westward this spring, says that a friend explains, by writing to him that "he really believes half of the Boston Yankees are going to Wisconsin."

Write to your friend, Carpenter, and beseech him to keep at home all such "Boston Yankees" as Mr. Ham.

Business at LaCrosse.—We learn from the LaCrosse *National Democrat* of the 11th inst., that business in that town is very brisk. Immigration unusually large, every house, store and tenement occupied, three or four steamboat arrivals daily, and crowds of men traversing the adjacent country, looking up locations. The Land Office there is doing an unprecedented business. The cash entries for April exceed $50,000, and for the first week in May were $18,000—more than double the business in the corresponding period last year. It is a very gratifying circumstance that the locations are made almost entirely by new settlers; very few lands being entered for speculation.

The Monroe Sentinel.—Mr. Walworth has disposed of his interest in the Monroe *Sentinel* to Messrs. N. L. Stout and G. W. Tenney, under whose management the paper has been published since September last. The *Sentinel* is a thorough going and zealous Republican paper, and one of the best of our State exchanges. It has contributed powerfully to the political regeneration of Wisconsin and deserves the liberal and hearty support of the Friends of Freedom in Green and the adjoining counties.

The editors say, in their last number:

"We are pledged, in principle, to the cause of universal liberty, and shall carefully and conscientiously live up to such a standard. And we shall endeavor to make our paper of local importance to the citizens of Green county, as well as a medium of news proportioned to our journal.

Gold in Arkansas.—A letter from a gentleman in Springfield Mass., dated April 30th, has the following in reference to the Arkansas Gold Mania: —"Yesterday fifteen or twenty of our citizens started for Neosho, where they are to join a company of near one thousand persons—all bound for the Witchetaw Mountains, about four hundred miles from this place—and up the Arkansas river. Several persons, residents of the county of Newton have recently returned, some of whom are said to have realized three thousand in fifty days' digging and washing. Quite an excitement prevails here, and another company is to go out as soon as the guides and pilots return."

Steamship Ericsson.—This vessel—known as the one in which the failure of the caloric engine was shown—has, it seems, secured a triumph for her owners after all. They set themselves at work with Messrs Hogg & Delamater, who built the engines, to devise some plan by which the consumption of coal should be lessened, and the result of the late trial trip, at a speed of 11 miles an hour, showed a reduction to less than a ton of coal per hour, which would make a saving of some $4000 for a trip across the ocean, as compared with the Collins steamers.

The Family of Empress.—The Empress Eugenie is the grand-daughter of the late William Kirkpatrick of Malaga, who married the granddaughter of Baron Grivegnee, of that city. He was the son of William Kirkpatrick, of Conheath, Dumfriesshire, a scion of the Kirkpatricks of Closeburn, in that city; an ancestor of Her Majesty's. Their possessions were large, and they were allied to most of the great Scottish families. But property departed, and the owners were expatriated.

So says the London correspondent of the Philadelphia *North American*.

Less than No Time.—One day last week a message was sent by the wires from Albany to Chicago, and an answer returned in seven minutes. So that if the message was dated Albany a quarter to 10 A. M., the Chicago correspondent would have had an answer back in Albany—by his own watch,—at about 10 minutes past nine A. M.

Dodge County Agricultural Society.—We learn from the Beaver Dam *Republican* that the Agricultural Society of Dodge County has resolved to hold its Annual Fair in the town in which the greatest number of members is obtained before the 16th of June next.

A Pair of Prophecies.—The Wheeling (Va.) *Times* thinks that Mr. Flournoy, the K. N. candidate for Governor of Virginia, will be elected by 20,000 majority. *Per contra*, Mr. Wise, the Democratic nominee, who has been stumping the State from end to end, is confident of success by 15 to 20,000 majority. The election comes off on Thursday next, and the result will be looked for with considerable interest.

Canada Annexed.—At their own request, the Canadian exhibitors at the Paris Crystal Palace, have had the space allotted to them thrown into one Department with that belonging to the United States.

It is also stated that the American Department being in the centre of the building, and well located for the purpose, it has been selected for the site of the thrones for Napoleon and Eugenie at the opening of the Exhibition.

☞ Bishop Potter administered the sacrament to the Hon. John C. Spencer on Friday morning last, in anticipation of a fatal termination to his illness.

Correspondence of the Sentinel.

N. Y. Agents of the Mil. & Miss. R. R.—A Correction.

New York, May 14, 1855.

Messrs. Editors:—In a communication published in your issue, under date of the 3rd inst., signed "A La Crosse Stockholder," I find the following language: "I know not how to account for his giving publicity to such a statement, except that he is willing to connive at, and aid in the unmanly course adopted in New York by the Agents of the Mississippi and Watertown roads in doing all they can to the injury of the La Crosse road."

I wish to correct this statement, *so far as* the Agents in New York, of the Mississippi & Mil. R. R. are implicated, as they uniformly give the La Crosse Road, whenever referred to, a fair standing, of which I am fully satisfied.

WM. DAWES, *Treasurer*.

Revived.—After a three months' suspension the La Crosse *National Democrat* re-appears in neat trim and rather improved in substance. The editor says that he can see nothing in his politics to amend, and yet is evidently not content with his political affinities and position, since he thus talks in his introductory article:

But with politics, proper, we expect to have little concern for some months. *In fact parties* are still too "mixed" to suit our spectacles. Just now we can see better use for our labors. From our point, here in La Crosse, there needs to go out a paper, bearing full stamp of its spirit, progress and resources. It should be thoroughly, a La Crosse paper, spread over with facts, figures, and clear calculations pertaining to this region. Such a paper we hope to have *a hand in*; anything 'shorter,' can give us no satisfaction.—

We quite *agree* in opinion with our contemporary, that talking up the attractions, improvements and business of La Crosse is a much more sensible and profitable occupation than defending the "Pierce and Nebraska" Administration at Washington, or bolstering up "Barstow and the Balance" at home.

Fire Annihilators.—The British Government has ordered $175,000 worth of these machines for the Crimea. Probably they are intended to quell *the fire* of the Russians.

☞ The Dunkirk barber, who robbed a customer of $1,400 by administering chloroform to him while shaving, was sentenced on Saturday to fifteen years' imprisonment in the penitentiary.

Shadding in the Delaware.—A shad fisherman sends a line to the Philapdelphia *Inquirer* complaining that the "stemboteś that trafick in the delewer spile the shaddin bisness, with there splashin and runin in shoar." Our piscatory friend remonstrates against this, and takes the indisputable position that "shaddin were invented afore stembotes."

Grant County.—An article which we copy to-day from the Grant County *Herald*, setting forth the manifold advantages of that fine Western County, is well worth the attention of emigrants looking for a new home in Wisconsin.

An Old Pear Tree.—The N. Y. *Tribune* of Monday last, gives the following interesting history of an old pear tree now in full bloom, in the heart of the busy city:

The old pear tree, corner of Thirteenth-st. and Third av., is again in full bloom. For more than two hundred years, this tree has perfumed the *spring-house* with its white blossoms, and per aps it has borne fruit nearly two hundred seasons. It was planted, if we rightly remember the date, in 1639, by Governor Stuyvesant, at his farm so far out of the city of New-York, that wild enthusiasm could not have dreamed then that even the city suburbs would ever reach so retired a dwelling place for Pomona, while that tree should live to bear fruit.—But now look at that tree in its two hundreth year of bearing, and its surrounding, east, west north and south; instead of *plowed fields*, grass lots, orchards and farm buildings, there is one continued pile of brick and mortar. The City has invaded and obliterated the farm, leaving only this old pear tree as a solitary land mark of the olden time. The advancing line of brick walls and busy shops, has marched up to the old pear tree and gone by with its streets and squares and stone pavements, until thousands who live beyond talk about going down town, when they go so far toward the spot that was a town when that tree was planted, as where the old pear tree is now blooming as sweet and fresh as in its youth. Of all that looked upon and called it the old tree when it bloomed the hundredth time, not a single one will look upon its present bloom. It is blooming *ever*, but they have bloomed, borne fruit—good or evil—and gone forever.

☞ The following paragraph was handed to us yesterday, having been sent to O. Shepardson, Esq., in a letter from California, we believe. We had not noticed it in our exchanges:

What of the "Sea Serpent?"—The schooner *Sea Serpent* sailed from San Francisco on the 18th of February—upwards of six weeks ago, for San Pedro, and as yet nothing has been heard of her, although strict enquiry has been made along the coast. It is further feared she may have been lost. She was at sea during the severe gale that disabled the steamer *Goliah*. It has been hoped that the *Sea Serpent* may only have been blown to the northward, but that is not very likely. She was only out of this port about three hours, when the gale came on, and could scarcely be blown so far in *one night* that she could not get to some port in four weeks.—The vessel had a full cargo of freight in the hold and six mules, and a deal of moveable freight on deck. She carried about thirty passengers. In these circumstances, as she was running before a heavy sea and considering the little likelihood of having on the hatch, together with the moveable nature of the deck load, there can scarcely be any doubt but that she was struck by a heavy sea, and either swamped or capsized. The *Sea Serpent* was consigned to Alexander & Banning, San Pedro. The passengers were bound to Kern river. Amongst them were Captain Hogue and lady, a *brother of Judge Lake*, and many other well known citizens of San Francisco.

From the N. Y. Tribune, May 12.

The Price of Beef Cattle.

We again call attention to the state of the cattle market. High as were the rates of three weeks ago, they had increased since then, and it is but a *few days* since beeves sold at $90 to $180 a head, averaging for all offered at least $100 each. In fact, all the best bullocks sold at rates equal to 15c. a pound. This is the highest market ever known in this city, and probably in any other of this country. The cause must be apparent to every one; the supply is not equal to the demand. The average weekly consumption that year was 3,257, and the supply this week is only 3,054—1,203 below the actual demand. The supply last week amounted to but 2,174, and with a single exception, the weekly supply has been below the average ever since the first of January. Choice cuts of beef will be retailed this week at 25 cents a pound, and how long those who buy to eat and eat to live can bear this, remains to be seen. It unfortunately happens that the price of mutton is even greater in proportion than that of beef, and thus is absolutely beyond the reach of many.

There is but little hope of any immediate improvement in these prices to the consumer, as there is at present an actual scarcity of beef cattle throughout all the country. The drain to California during several years, the former low prices in the West, before the introduction of railroads, and the neglect of farmers to raise cattle to meet the increased demand which railroad facilities occasioned,—these causes, taken in connection with the recent drouth and consequent increase in the price of corn, have combined to produce the present condition of affairs in our markets, And that they are not likely to improve soon may be gathered from the statements made by Western and other papers with reference to the *falling off* in the number of cattle which has taken place. Ohio papers state that in the County of Trumbull there were 23,000 cows last fall, and at the present time there are only 18,000. They have been lost during the winter and spring five thousand.

What is true of that country is probably true of many others in all the Western States. The inevitable result of this scarcity of stock will be the continuation of the present extraordinary rates; and those who begin to think they cannot afford to eat so much high-priced meat had better turn their attention to find some other substance for food. It is to be hoped we have now reached the highest figure of extravagant prices, but we need not hope to return, in our day, to the low prices which were *formerly* seen in this city.

Bad News from the Sault.—The Northerner came down yesterday with bad news from the Saut. The water was let into the canal a few days ago, when owing to the frosts not yet being out of the ground, or for some other cause, the embankments gave way, making a bad breach, which will probably take four weeks to repair and it is doubtful whether boats will be able to pass in less than six weeks. This is a very unfortunate affair for the interests of Lake Superior, as well as to this city.—[Detroit Advertiser, May 16.

GRANT COUNTY.

Commercial, Agricultural, Mining and Manufacturing Resources.

A glance at any perfect map, of a late date, with the counties of Wisconsin marked on it, must satisfy any person that Grant County occupies the finest Commercial situation of any county in this or any adjoining State. We have a river coast of one hundred miles, washed by the Mississippi and Wisconsin Rivers, upon whose waters float annually in boats, many millions of *commerce* and hundreds of thousands of emigrants, also, thousands upon thousands of rafts of lumber. Every six or eight miles of the river coast is provided with a good landing and warehouses for receiving grain and merchandise; and town roads in every direction are being provided to an extent almost incredible. The Illinois Central Railroad is completed nearly to the southwest corner of our county. This railroad terminates the farthest north and west of any other at present, and opens a perfect line of communication with the east for the entire Northwest. The Milwaukee and Mississippi Railroad is under contract from Madison to Prairie du Chien, passing through about thirty miles north of Grant County. The Railroad will be completed within a *few months*, and about all the means to pay therefor has been provided, safe and secure. This will give us a second communication with the *east by the great British* line of Railroads.

As to the Agricultural resources of Grant County, a region nearer perfection cannot be found in the West; we lack no part, whether of *soil, climate*, timber, water, rock or other essential. Lime exists largely in the composition of our soil, which is supported by a clay basis, so that our land is enduring as *it is fertile*.

Mining is a permanent and substantial interest, from which an annual cash revenue is derived, equal in amount to about $30 per head for each inhabitant of the county, or between five and six *hundred* thousand dollars. The mines pay larger the more they are worked, and when a better system of mining is adopted they will pay much better. The lead product of Grant County will always keep money plenty, no difference if every bank breaks from Maine to Texas. This resource can never be exhausted,—all mining done heretofore is mere scratching.

So far as water-power, building materials, centre of locality and facilities for intercommunication with distant parts are concerned, we are the best situated for *manufacturing* of any county and people in all the West. We make this sweeping declaration, not fearing contradiction, as what we say is plain on the map and statistic facts.

Timber is abundant in this county, though in places it is not well distributed, as in the south part. The rivers supply us with any amount of pine and other lumber, at cheaper rates than it can be had east or south. Every kind of building material, stone, and clay for bricks included, are plenty and of perfect quality. We have any amount of blue limestone—said to be the best rock material in existence, except marble; also plenty of lime and sand.

We ask of strangers an examination into our statements, and if any one is *found* untrue our columns are free for exposure.—Grant Co. Herald, May 14.

Terrible Accident.—On last Friday afternoon at the depot, in this city, Mr. Thomas Huggins met with an accident which terminated his life in about two hours after. We learn he was unloading from his dray a large plow, when the freight train was near. Standing between the handles of the plow, the train came upon him suddenly and unexpectedly. Catching one handle of the plow, it threw him between the cars, causing the other handle to pass through the lower part of the abdomen. His hips were also badly mangled, and he would have been killed instantaneously by the wheels of the cars, had not a friend seized and dragged him away. The poor fellow was conscious from the time of the accident until his death. During the paroxysms of pain from which he suffered dreadfully, it is said, he begged of those around him, to take his life, as he said it was impossible for him to live. Physicians were called immediately, but his injuries were so severe, as to be beyond the aid of the most skilful.

Mr. H. was a young man in the vigor of life—an industrious and useful citizen, and leaves a wife and child to deplore their remediless loss.—[Janesville Standard.

Registered Letters.—The Postmaster General publishes instructions for the registry of valuable letters after the 1st of July.

Such letters, if the persons sending them desire, will, on payment of a fee of five cents, be registered in an account separate from that of the other mail matter, stating the date and name of the person and place to which it *is directed*. The Postmaster will then give the sender a receipt for it. The registered letters will be put in packages separate from others, which packages must be not only tied up but sealed. On their arrival at the place of destination they will again be recorded in a book kept by the Postmaster, and when delivered a receipt will be taken from the person receiving them. In all large *offices* the charge and care of registered letters will be given to one clerk, specially. In case any such letter is missing, the Department at Washington is to be informed immediately by telegraph if possible, and strict and vigilant means taken for the recovery of the letter and the punishment of the offender.—[Buffalo Commercial.

The Stevens House.—We do not know when anything afforded us so much satisfaction as to be able to announce that this building is about to "rise from its ashes." Through the energy and industry of Dr. Mitchell and others, the stock necessary to be raised by our citizens ($10,000) has been subscribed, and under the proposition of Mr. A. Hyatt Smith, the building will be commenced forthwith. This announcement will not only afford pleasure to our own people, but will be a source of gratification to those of the travelling public, who have domiciled under its hospitable roof.—[Janesville Standard.

☞ We published a little poem entitled 'May,' by J. G. Percival, some time since. It was written many years ago. The *Wisconsin* seems to suppose that it is something new, and says it is worthy of Percival in his best days! All the Barstow and balance papers have copied it, and seem suddenly to have become enamored of Percival's poetry, since that gentleman has been appointed State Geologist. The manner in which his poetry is thus patronized is decidedly amusing.—[Madison Journal.

Oshkosh Flour.—The schooner *Merchant* sailed yesterday for Fond du Lac, loaded down with lumber and produce. Part of her cargo consisted of 250 bbls. Flour manufactured at the Oshkosh City Mills, and consigned to Portland, Maine.—This flour is of a superior quality, and will compare favorably with the best manufactured in the country. Only six years ago, the settlers hereabouts were obliged to procure the greater part of their supplies from abroad; now they send large quantities of their surplus to the far down east.—[Oshkosh Courier May 15.

Emigration.—Last Monday, a procession of nineteen covered wagons, loaded down to their utmost capacity with women, children and household furniture, passed through our city on their way west or north. Following after them were horses, cattle and sheep. Hardly a day passes during which long trains of wagons do not go by. If the other principle roads of the State are as thickly covered with emigrants as the ones in this vicinity, an unparalelled number of new settlers must be pouring into Wisconsin and the west. Most of these pioneers look like industrious, honest, and hard working men, who have *left their former homes*, because the promises and prospects of doing better in this part of the country were brighter than at home.—[Watertown Democrat.

Oswego Canal.—The sluice-ways were opened above the city and the water commenced flowing into the new section at about seven o'clock last evening and the channel will be full this morning. If no mishap occurs, probably most of the loaded boats will commence moving to-day, and be *fairly* on their way to tide water between now and Monday. This news will be hailed with great joy by the whole commercial community. Our elevators and mills on the east side will also commence running to-day. This is of vast importance, for there are probably 200,000 bushels of grain now afloat in the river to be discharged. The wheels will spin to-day tremendously.—[*Oswego Palladium*, 19th.

Lapointe Heard From.—The returns of the recent Judicial election in Lapointe Co., have been received, as follows:

For Samuel Crawford, 5

For James H. Knowlton, 16

These are supposed to be the votes at the election in April last; but as James H. Knowlton was a candidate against Crawford two years ago last September, it has been suggested that these are the returns for that election. At any rate it does not alter the result.—[Madison Democrat.

☞ We understand that Rev. Mr. Armitage has accepted a call to assume the pastoral charge of Grace Church (Episcopalian) in this place.—He is expected in June. We have also been informed that Rev. Mr. Miter, of Milwaukee, has accepted a similar call from the Congregational society at Madison.—[Madison Journal.

Wisconsin at the French Crystal Palace.—A. F. Carman, Esq., who recently left this place for Europe, was appointed by Gov Barstow, commissioner of Wisconsin to the French Industrial Exhibition.—[Madison Democrat.

Some Whiskey.—Beger and Silverman have just received 400 barrels of whiskey. Mr. Silverman informs us that every barrel with contents will be disposed of in less than a month. This is only one concern out of *thirty-nine* where spirituous liquors are sold in this village. Who are the consumers?—[Oconomowoc Advertiser.

Andrew Marshall, the Negro Preacher.

A correspondent of the New York Recorder, writing from Savannah, says:—

On Sabbath morning I attended divine service at the Presbyterian Church, of which the Rev. Dr. Preston is pastor; he was absent, and his place was supplied by a New England minister. The building is very fine, of granite brought from Maine, and the interior is a noble temple.—In the afternoon I *determined to hear* the renowned Andrew Marshall, the veteran pastor of African Baptist Church. This soldier of the cross has a world-wide fame, and a very interesting notice of his pulpit services may be found in Sir Charles Lyell's travels. Mr. Marshall's church is a fair old building, and in its interior much resembles a New England old country meeting house.

I looked round upon the congregation, and noticed that the audience, without exception, was well dressed, the women chiefly wore head-dresses of Madras handkerchiefs, though many had bonnets, and most of the men wore gloves. Mr. Marshall, I should observe, is in his 100th year, his hair is as white as snow, his countenance mild, without any wrinkles to mark decrepitude or decay. His voice is one of great sweetness and power; he read his hymn without spectacles, and such reading! In sober truth, I know no Northern Doctor who can read as well. It was read as Stoughton used to read, and those who remember that style of giving out psalmody, will long to hear Andrew Marshall. I came to church expecting to hear a *wreck of* a preacher—a negro preacher. I found in the pulpit a master in Israel. Age has not touched his faculties, his mind is as vivacious, and its workings are as true and faithful as are the intellects of a man of 30 or 40 years of age. He preached for an hour an expository sermon on the man out of whom Christ expelled the devils who were permitted to go into the herd of swine.

Mr. Marshall's sermon will remain in my memory associated with the discourses of great men. The exposition was scriptural, argumentative, full of imagination and abounding in wit, yet all *in keeping* with the place. I was reminded all through the sermon of three great preachers in the old country, each eminent in his peculiar way. *I refer to Rowland Hill, Christmas Evans*, and William Jay. Marshall has much of the wit which corruscated from the desk of Surrey Chapel, while the graphic sketching of the Welch Demosthenes, and the admirable colloquial style of Jay *are found* all through his sermon. The noble preacher made more points of power in that hour, than I have heard in any sermon for five years. I regard him as the most astonishing preacher I have ever listened to, when his age, his social position, and his illiteracy are all considered. No pulpit in New York or Boston but would have been honored by such a sermon.

The limits of a letter will not permit me to give an outline of the sermon, but it will live in my memory, and its illustration would have been a stock in trade for a tyro in theology, and many a sprig of divinity. Mr. Marshall's voice is euphonious, his manner dignified. Nothing but his white hair indicates his age, and I should never have supposed him more than sixty-five, had I not *been informed*. I must not forget his prayer; it was man talking with God, reverently wrestling with God. He saw the portals of the city—he had been often at its gates and it seemed as if he knew the holy ones. Among the hearers were several white ladies and gentlemen, and I was glad to meet there with the Hon. Francis Granger and his daughter. They both unite with me in my high appreciation of the preacher, and Mr. Granger told me that he thought the reading of the hymn was one of the most impressive exhibitions of sacred oratory he had ever witnessed.

Mr. Marshall drove General Washington from Virginia to Savannah, and he observed that during the entire journey he never saw him smile.

Time's Changes.—The Albany *Evening Journal* copies from the Buffalo *Democracy* an account of the initiation of ex-President Fillmore into the rites and mysteries of Know Nothingism and makes it the subject of the following sharp comments:

Mr. Fillmore rose, *from the House of Assembly* to the House of Representatives, by what was believed, by the People, to be earnest opposition to Secret Societies and Slavery. He worked with us, shoulder to shoulder, as an Anti Mason, and *kept always a few paces in advance* as an Abolitionist.

But "for the sake of the Union" this patriotic Politician renounces Freedom and joins a "Secret Society;" and is ready, we doubt not, "for the sake of the Union," to take any other step that may be suggested as expedient. He is now, *ex gratia*, a Third Degree Know Nothing under the auspices of *Macomber & Co*.

A Letter from the South.

Correspondence of the Albany Evening Journal.

Natchez, (Miss.) April 27, 1855.

To the Institution of Slavery *every thing* binges its knee here. Religion bows to it, and does its homage; while its ministers preach of Ham, of Slavery among the Old Testament Jews, and of the manifest wisdom and glory of God. Education cringes to it, and philosophises about the "unity of the races," and the "phrenologic I and anatomical developments of the negro," with a clearness and perspicuity, only equalled by the darkness of the Stygian bog. Politics cringes to its dictates, and politicians talk of Kansas and Nebraska as the Thermopylæ and the Marathon of "Southern rights."

Society knuckles to it, by the meanest of compliances, estimating its own value by the worth it puts upon its members, whose qualities are calculated by the number of "niggers" they own and the number of cotton bales they gin. Morality bends before it, and Planters lie down and cohabit with it. Affection, sympathy, and the natural ties of nature yield submissively to its inhuman behests, and white brothers and white sisters see their semi-colored half-brothers and half sisters sweat for them without dropping a *tear of pity, or see* them parted from them for gold, without a sigh of agony. The truth is, that Mrs. Stowe's picture of Slavery is to the reality as a faintly colored portrait is to the original. That canvass can not be dark enough, nor those colors bright enough to paint the likeness of Slavery so it will resemble the original, placed in however good and advantageous a light.

There are a thousand evils connected with Slavery, which I would like to describe, in the Journal by letter, but you could not write a letter here, either to the Journal or *Tribune*, without hazarding the liability of having your letter broken open, and then suffer a coat of tar and feathers and an economical ride or a rail for your temerity. I thank God, that William H. Seward has *been returned* to the Senate again for six years, whom I think to be the ablest man far in that body—and a half a century in advance of any other Statesman in the United States, in political wisdom and sagacity. Excuse this long *introductory letter*, and believe me to be,

Respectfully yours.

No More Liquor.—We hope that the sun sets to-night for the last time upon the state of Michigan, as a state wherein Intoxicating Liquors can be sold, with the *consent* and *sanction of Law*. To-morrow morning the Maine Law rules, thank God! To that time have many anxious hearts and weeping, waiting eyes looked—hearts and eyes of whose sorrows and tears we have had no knowledge. But it has all been, nevertheless —Now once more comes hope and the promise of happiness into many homes whence peace had been driven. The *bow* arches the dark clouds again.

The liquor sellers, as far as we learn, intend to submit. A large meeting was held on Saturday night, we understand, but nothing definite was done. Another was held this morning, but what conclusions were reached we are not advised.—There will, undoubtedly, be a case started *for* the purpose of testing the *law* in the court, but until it is pronounced unconstitutional, no selling will be tolerated, and if we wait *for that* decision, we have the best of reasons for supposing that it will be a long way hence. The Mayor assures us that he shall carry it out to the very letter, and the mass of the people say Amen! Ah, but won't there be thanksgiving held to-night.—[Detroit Tribune, May 14th.

Presidential Candidates. — The Concord *Statesman* thus describes the leading Democratic aspirants for the Presidency:

"Mr. Buchanan is too penurious, and besides, cut his own throat by signing the Ostend document. Gen Cass has reached a garrulous old age. If in the Presidential Chair *his Mess ges would probably make from fifty to seventy-five columns* solid brevier. Douglas, beside his Nebraska infamy, carries a sort of sailor board age house odor about him, caused by liquor and cigar-smoke."

Southern Wisconsin Rail Road.—We made a short excursion as far east as Juda—8 miles—on Monday afternoon, and found Mr. Dodge the engineer, making his way toward this place, where he expects to be on Thursday or Friday, at farthest. He is now running a correction line, after which he will put on the level and make out the estimates. Everything seems to be doing which can be done to forward the interests of the line.—Monroe Sentinel.

The Know Nothings Presented.—The Grand Jury of Buncombe Co., N. C., have presented Know-Nothingism as a nuisance. This does them credit, but it is not surprising. After the great number of speeches made for Buncombe, we have a right to expect an extraordinary degree of intelligence among its people.—N. York Tribune.

POLICE COURT.--May 18.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

A warrant was issued against David Oldensburg charging him with *stealing* fourteen cords of cord wood, the property of Frederick W. Alexander on the 18th of May. The case was adjourned to May 28th at 9 A. M., the defendant giving bail in the sum of $300,00 for his appearance.

A warrant was issued against E. F. Langdon charging her with stealing from the shop of Mrs. Wheeler on Wisconsin street, on the 17th of May, one piece of dress silk, and two pieces of barege of the value of forty dollars, the property of complainant.

Schoolmaster in Trouble.—Carl Eckhart, a school teacher in St. John's school, second Ward, was tried and found guilty of an assault and battery upon Louis Breiel, a boy ten years of age, and fined $7,50 and costs, amounting in all to $12,19.

Chicago Liquor Peddlar Fined.—A man whose given name was John Smith, was arrested by the City Marshal on a warrant issued upon complaint of John Bechtel, charging him with selling liquor without a license. The defendant plead guilty to the charge of violating the ordinance, but claimed that he could not be fined as he had sold it at wholesale. The plea was of no avail, and he was fined $25 and costs.

The defendant was from Chicago, peddling whiskey &c, and, it appeared, crossed the track of some of the home dealers and was arrested. As this money, the fine, is from the Garden City, would'nt it be a good plan for the Common Council to appropriate it to help support the poor sent here from that city? To send paupers here first, and then liquor peddlars to supply the means for making more is pretty good "cheek," to say the least. However, Mr. Smith, can tell his own story when he gets back to Suckerdom.

Common Council.—A special meeting of the Common Council was held Thursday evening.—A petition was presented from the Draymen, for a reduction of their License fee to 50 cents, and from Engine Co., No. 3, for the annual appropriation of $100.

Ald. Robinson introduced a resolution of inquiry as to the contract for dredging the river.—Ald. Ludington urged that the matter should be promptly attended to, and expressed the belief that the present contractor had not fulfilled the terms of his contract, and that it ought to be broken up. Ald. Powers was for overhauling the whole business, and, on his motion, the contract, was referred to the City Attorney, with instructions to report at the next meeting whether it had not been violated.

A special committee was appointed to enquire, and report as to expediency of purchasing a new engine for No. 5.

Ald. Powers presented a resolution constituting and appointing the Common Council a Board of Health. Also another resolution instructing the committee to revise the ordinances to prepare an ordinance for the government of said Board of Health, and to report the same to the next meeting. Adopted.

Board adjourned.

Circuit Court.—The trial of Blake, et als., for the Burglary, &c., at the Ten Mile House, occupied the Court during yesterday. It may probably end to-day.

Lumber from Canada.—The fine barque *Northern Light*, Capt. Middleton, hailing from Fort Erie, Canada, arrived yesterday with a cargo of 170,000 feet lumber from Dunnsville (at the mouth of Grand River), duty free under the "Reciprocity" treaty. This is the *first* arrival of the kind, but with the great demand for lumber which exists at present, and which is quite likely to increase, we shall doubtless record many such arrivals.

Barque Great West.—This vessel, whose valuable cargo we mentioned the other day, got out of harbor yesterday, and displayed her great spread of sail to the afternoon sun, as she made her way slowly northward against a head wind.

The schr. *Souvenir* was damaged somewhat by collision with the *Great West*, before the latter left the river.

Y. M. A. Library Catalogues.—Members and others who use the library of the Young Men's Association will find it a great convenience to possess a copy of the catalogue, a very complete edition of which has been prepared by the Committee, and may be obtained at Whittemore & Co's.

Large Sales of Wheat.—Between sixty and seventy thousand bushels of wheat changed hands yesterday at prices ranging from 1,57 to 1 60 *for mixed, free* on board. The market was very animated, and the *Baltic's* news will give it additional impetus to-day.

Tall Rye.—Mr. Thomas Sugden, from Genesee, Waukesha Co., brought us yesterday from his farm, a stalk of rye measuring 2 feet 9 inches in height, and with the head fully formed. He says that he did not search for the tallest stalk, and that the field from which *it* was taken is nearly all as far forward.

New Railroad Depot.—The Milwaukee *Democrat* states that the Milwaukee and Watertown Railroad Company are *preparing to erect* a large Railroad depot, on a lot lying immediately north of the Milwaukee and Mississippi Railroad depot. The new building is to be two hundred and fifty feet long by forty in width, and is to be *built in* the most substantial way.—[Watertown Democrat.

The *Democrat* may possibly suppose that the Company is putting up a more costly building than is really the case. The edifice is only what is called a "platform," and though strong enough for its work, not of an expensive kind. The flooring was nearly all laid yesterday.

School Lands for Sale.—J. H. Crampton, Land agent, offers for Sale, on very favorable terms, 25,000 acres of choice School Lands. To persons looking out for good locations and desirous of improving them, this is a good opportunity. See Advertisement.

Collision with the Pier.—The steamer *Niagara*, in coming to Kellogg and Strongs Pier night before *last*, struck the North East corner of the Pier, doing considerable damage to the Pier, and receiving a good deal of injury herself, but proceeded on her passage.

Dr. Baker.—By his card in our leaded column, it will be seen that Dr. Baker has an office at Concert Hall and may also be found at his residence.

Not Much of a Shower After All.—The rain, which set in so merrily about 9 o'clock Thursday evening, held up very shortly afterwards; hardly enough falling to lay the dust.

Sale Continued.—Rooney's sale of Damaged Dry Goods, Groceries, &c., at his Giant Auction Rooms, will be continued to-day.

For the Sentinel.

Messrs. Editors—No one acquainted with me, will accuse me of the practice of hanging around the Police office and Circuit Courts, or visiting the jail with a view of seeking business or employment. Nevertheless, I was day before yesterday afternoon sent for by William Jones, then in jail on a charge of arson, to come to his assistance as counsel upon his trial which had been set down for that afternoon. The persons in charge of the jail *freely* and speedily admitted me, and kindly placed their office at *my* disposal for a private and confidential interview with my *client*. *I found* that his case had not been prepared, and that he was not ready for trial and thereupon concluded to move the Court to mitigate bail (from $5,000 to $3,000) with a view to release him on bail, and enable him to get the necessary witnesses for his defence, and get a postponement of his trial for a few days for that purpose. Accordingly, he was yesterday released on bail, and the trial postponed to Monday next. So far all well. But judge, if you can, of my astonishment within half an hour after I supposed I had had a *private* and *confidential* interview with my client in prison, to have the District Attorney object to a postponement of the trial because the officers of the jail had just informed him that my chief object in asking for delay was to impeach the main witness of the state against my client! I made no comment or allusion whatever to the *villainy and treachery* of the officers *in eaves-dropping*, and carrying to the District Attorney the sacred and confidential revelations between a prisoner in custody and his counsel, but only replied—what of it? Is it not competent for us to impeach the State's witnesses if we can?

Here, Messrs. Editors, I would have let this disgraceful affair drop, if I had not just been met in the street by the State's chief witness against my client—*John Ryan*—who inquired of me if Jones had got his witnesses yet to impeach him. I replied that I had not seen Mr. Jones since his release from prison, and I did not know what witnesses he had. Thereupon Ryan remarked: "you will see the greatest crowd at the Court House to sustain me that ever you see; the Court House will hardly be able to hold them; I will show you what you will get if you undertake to impeach me." Calmly I answered, "I hope you will not get the county to foot the bill of your great crowds of witnesses," and thereupon passed on. Whereupon he yelled out, "yes, they will, or I will break the head of every man *in* the county; and yours too, you"—adding, several opprobrious epithets, interspersed with oaths in equal number.

Now I have no objection whatever that John Ryan, (a constable, and therefore *peace officer*,) should threaten, or even attempt to break my head, *if that be his game*; but I write to *protest* against jail officers listening to confidential communications between counsel and the prisoners under their charge, or reporting what they might accidentally so hear, to the District Attorney. And particularly and especially do I protest against the doctrine that State's witnesses, and particularly such as John Ryan, should not be attempted to be impeached; and if threatened to be impeached, that he shall be allowed to subject the county to *unnecessary* expense to sustain him, and that if he cannot have his own way, he, a constable, and in virtue of his office, a *peace officer*, threaten to bully counsel in the just and legal discharge of their duties.

I am now pretty much of the opinion some time since and often expressed by many of our best citizens, that many of the *city officers and watchmen* are themselves guilty of more than half the offences committed, and charged to innocent men, in the hope of getting a *reward*, or high compensation *for their services* as pretended guardians of the public and private property.

Foreign and Domestic Dry Goods.—Dike & Hoffman, at No. 65 East Water street, invite attention to their large stock of Dry Goods, Bonnets, Parasols, &c. See card in our advertising columns.

☞ We can hear of no violations of the Liquor Law yet. Doubtless, some is sold on the sly, but open trafficking is "done for." Nobody seems disposed to complain either, but all take it as a matter of course, and a pretty good thing after all. A goodly *number of* confirmed tipplers have a great deal of business calling them to canada just now, consequent upon the Reciprocity Act perhaps, so the ferry boats are profiting.—[Detroit Tribune May 16.

Detroit and Milwaukee Railroad.—Contractors on the division from this city to Ada advertise for workmen to commence chopping and grading immediately. The gentlemen having *the control*, we understand, have recently finished a portion of the Canada Railways, and will transport their stock and tools from that point to this; 500 choppers are wanted immediately at good prices.—[Grand Rapids, Ind.

Village property is coming up in price quite rapidly. We have heard of a number of sales at 75 per cent. advance on last summer's prices. And yet there is no speculation, because no inducements are held out to purchase unless they intend to settle here.

That is the true policy, and we hope our Real Estate *owners* will not swerve from it.—[Appleton Crescent.

The Empress Eugenie.—In the Paris correspondence of the *Procureur d'Anvers*, under date of the 22d ult., we find the following:

The Empress is enchanted at the idea of her visit to the East, and she is proud to find that the Emperor has ended by gaining every one over to his side. The journey to England fatigued her greatly; but she always endeavored to conceal its effects, from an apprehension that the Emperor would not consent to take her with him to the East. Whenever the sense of fatigue overpowered her, she hastened to say that that which tired her most was the continual efforts in public to which she was condemned. Yesterday evening, as she was speaking with enthusiasm of her approaching departure for the East, she added that there was only one thing that troubled her, in connection with this journey, and that was the idea of her stopping at Constantinople. "What would you do at Sebastopol?" enquired the Emperor. "would you accompany me about on horseback?" "No," replied the Empress, "but wherever there is suffering to assuage, have not women a sublime duty to fulfil. Whilst you would be at the head of your soldiers, I would be the *leader* of those meritorious women who visit the battlefield to attend upon and console the wounded."

MARINE INTELLIGENCE.

First Boats.—The canal boat *New York*, of the Troy & Western Line, was the first to arrive at New York from Buffalo.

The canal boat *R. H. Bell*, of the Union Transportation Co., the first boat to arrive at Buffalo, from New York, had on board merchandise for E. Yolck, Sheboygan, Drummond & Co., Fond du Lac; and Millard & Parker, Markesan, Wis.

Launched.—The schooner *F. B. Gardner* was launched from the shipyard in this city on Saturday last. She is a noble vessel, and sits upon the water like a duck. She was built by Mr. Gilson, who is hard to beat in this line of business, for Mr. F. B. Gardner, of Chicago, after whom she is named. Her dimensions are: 136 feet long, 34 feet 4 inches beam, 11 feet, 4 inches depth, and 435 tons bur then. Captain James Flood, an experienced sailor, is to command her.—*Sheboygan Journal*.

The *Henrietta* was at our landing on Monday evening last, having brought freight for Malley & Bro., and others. She took down from here about 1500 pigs lead, 1200 bus wheat, and 900 bus corn.—*Potosi Republican*, May 12th.

MEXICAN MUSTANG LINIMENT.

From rich and poor, bond and free—all grades, colors and conditions, the same meed of praise is irresistibly given to this wonderful preparation. Thousands of bottles are sold and used daily, and but one universal opinion is uttered by all who use it, and that is, that no remedy ever before discovered, possesses such perfect healing and curative properties. It acts like magic in relieving pains of any kind, no matter by what caused, or how excruciating—sprains, dislocation of joints, bruises, cuts, burns, scalds, ulcers, cancers, rheumatism, piles, caked breasts or any pain, soreness, stiffness, or weakness of joints, muscles or ligaments. The Liniment is equally applicable and equally effectual in giving immediate relief. Try it.

VOLUME XI. MILWAUKEE DAILY SENTINEL. NEW SERIES.

THE DAILY SENTINEL.

Rufus King, Wm. H. Watson & John G. Fillmore, PROPRIETORS, UNDER THE NAME AND STYLE OF

RUFUS KING & CO.

Saturday Morning, May 19.

Later from Europe.

The U. S. steamship Baltic arrived at New York last evening with Liverpool dates to the 5th instant, and news from Sebastopol to 4th—being fourteen days only from the Crimea to Milwaukee! She brings important news, commercially, and much intelligence of general interest. Breadstuffs have again largely advanced. Europe is likely to need all that America can spare from her next harvest.

Sebastopol still stands, while the besiegers stand still. The terrible bombardment has not shaken the well-defended fortress. Great loss of life, and vast expense, are, as yet, the only results of the siege. A new plan of operations begins to be talked of.

The abandonment of the seige grows daily more probable, and a bloody battle between the Russian covering army and the Allies seems impending.

The Emperor Napoleon narrowly escaped assassination on the 28th ult. The Vienna Conferences are ended, and both French and English Commissioners have returned home. Quite full details of the news will be found under the telegraph head.

Lake Shore Railroad.

We have the pleasure of informing our readers that our waiting eyes were greeted last evening by the steam engine *Lake Shore*, bringing up several passengers, whose impatience for a railroad connection would not allow them to wait the two or three days necessary for arranging the passenger trains. Chief Engineer Alton and a party of his aids, were also on the train and an omnibus—one of Davis' line—was sent down to meet the train at the crossing near Wilcox's.

It certainly is a veritable railroad, and in further evidence of the fact, our Common Council and other invited guests of the Company, will take carriages from the foot of East Water St., at 7 o'clock this morning, and go to the road, and thence proceed, by steam, southwards to witness the welding of the last links in the iron chain which binds our lake cities together.

Of the ceremonies, and the future arrangements of the Company, more on Monday.

Massachusetts Coming.—Mr. Carpenter, of the Madison *Patriot*, wondering whence come all the travelers westward this spring, says that a friend explains, by writing to him that "he really believes half of the Boston Yankees are going to Wisconsin."

Write to your friend, Carpenter, and beseech him to keep at home all such "Boston Yankees" as Mr. Ham.

Business at LaCrosse.—We learn from the LaCrosse *National Democrat* of the 11th inst., that business in that town is very brisk. Immigration unusually large, every house, store and tenement occupied, three or four steamboat arrivals daily, and crowds of men traversing the adjacent country, looking up locations. The Land Office there is doing an unprecedented business. The cash entries for April exceed $50,000, and for the first week in May were $16,000—more than double the business in the corresponding period last year. It is a very gratifying circumstance that the locations are made almost entirely by new settlers; very few lands being entered for speculation.

The Monroe Sentinel.—Mr. Walworth has disposed of his interest in the Monroe *Sentinel* to Messrs. N. L. Stout and G. W. Tenney, under whose management the paper has been published since September last. The *Sentinel* is a thorough going and zealous Republican paper, and one of the best of our State exchanges. It has contributed powerfully to the political regeneration of Wisconsin and deserves the liberal and hearty support of the Friends of Freedom in Green and the adjoining counties.

The editors say, in their last number:

"We are pledged, in principle, to the cause of universal liberty, and shall carefully and conscientiously live up to such a standard. And we shall endeavor to make our paper of local importance to the citizens of Green county, as well as a medium of news proportioned to our journal."

Gold in Arkansas.—A letter from a gentleman in Springfield Mass., dated April 30th, has the following in reference to the Arkansas Gold Mania: —"Yesterday fifteen or twenty of our citizens started for Neosho, where they are to join a company of near one thousand persons—all bound for the Witchetaw Mountains, about four hundred miles from this place—and up the Arkansas river. Several persons, residents of the county of Newton have recently returned, some of whom are said to have realized three thousand in fifty days' digging and washing. Quite an excitement prevails here, and another company is to go out as soon as the guides and pilots return."

Steamship Ericsson.—This vessel—known as the one in which the failure of the caloric engine was shown—has, it seems, secured a triumph for her owners after all. They set themselves at work with Messrs. Hogg & Delamater, who built the engines, to devise some plan by which the consumption of coal should be lessened, and the result of the last trial trip, at a speed of 11 miles an hour, showed a reduction to less than a ton of coal per hour, which would make a saving of some $4000 for a trip across the ocean, as compared with the Collins steamers.

The Family of Eugenie.—The Empress Eugenie is the grand-daughter of the late William Kirkpatrick of Malaga, who married the grand-daughter of Baron Grivegnee, of that city. He was the son of William Kirkpatrick, of Cowheath, Dumfriesshire, a scion of the Kirkpatricks of Closeburn, in that city; an ancestor of Her Majesty's. Their possessions were large, and they were allied to most of the great Scottish families. But property departed, and the owners were expatriated.

So says the London correspondent of the Philadelphia *North American*.

Less than No Time.—One day last week a message was sent by the wires from Albany to Chicago, and an answer returned in seven minutes. So that if the message was dated Albany a quarter to 10 A. M., the Chicago correspondent would have had an answer back in Albany—by his own watch,—at about 10 minutes past nine A. M.

Dodge County Agricultural Society.—We learn from the Beaver Dam Republican that the Agricultural Society of Dodge County has resolved to hold its Annual Fair in the town in which the greatest number of members is obtained before the 16th of June next.

A Pair of Prophets.—The Wheeling (Va.) Times thinks that Mr. Flournoy, the K. N. candidate for Governor of Virginia, will be elected by 20,000 majority. *Per contra*, Mr. Wise, the Democratic nominee, who has been stumping the State from end to end, is confident of success by 15 to 20,000 majority. The election comes off on Thursday next, and the result will be looked for with considerable interest.

Canada Annexed.—At their own request, the Canadian exhibitors at the Paris Crystal Palace, have had the space allotted to them thrown into one Department with that belonging to the United States.

It is also stated that the American Department being in the centre of the building, and well located for the purpose, it has been selected for the site of the thrones for Napoleon and Eugenie, at the opening of the Exhibition.

☞ Bishop Potter administered the sacrament to the Hon. John C. Spencer on Friday morning last, in anticipation of a fatal termination to his illness.

Correspondence of the Sentinel.

N. Y. Agents of the Mil. & Miss. R. R.—A Correction.

New York, May 14, 1855.

Messrs. Editors:—In a communication published in your issue, under date of the 3rd inst., signed "A La Crosse Stockholder," I find the following language: "I know not how to account for his giving publicity to such a statement, except that he is willing to connive at, and aid in the unmanly course adopted in New York by the Agents of the Mississippi and Watertown roads in doing all they can to the injury of the La Crosse road."

I wish to correct this statement, so *far* as the Agents in New York, of the Mississippi & Mil. R. R. are implicated, as they uniformly give the La Crosse Road, whenever referred to, a fair standing, of which I am fully satisfied.

WM. DAWES, *Treasurer*.

Revived.—After a three months' suspension the La Crosse *National Democrat* re-appears in neat trim and rather improved in substance. The editor says that he can see nothing in his politics to mend, and yet is evidently not content with his political affinities and position since he thus talks in his introductory article:

But with politics, proper, we expect to have little concern for some months. In *fact parties* are still too "mixed" to suit our spectacles. Just now we can see better use for our labors. From our point, here in La Crosse, there needs to go out a paper, bearing full stamp of its spirit, progress and resources. It should be thoroughly, a La Crosse paper, spread over with facts, figures, and clear calculations pertaining to this region. Such a paper we hope to have a hand in; anything 'shorter,' can give us no satisfaction.—

We quite agree in opinion with our contemporary, that talking up the attractions, improvements and business of La Crosse is a much more sensible and profitable occupation than defending the "Pierce and Nebraska" Administration at Washington, or bolstering up "Barstow and the Balance" at home.

Fire Annihilators.—The British Government has ordered $175,000 worth of these machines for the Crimea. Probably they are intended to quell the fire of the Russians.

☞ The Dunkirk barber, who robbed a customer of $1,400 by administering chloroform to him while shaving, was sentenced on Saturday to fifteen years' imprisonment in the penitentiary.

Shadding in the Delaware.—A shad fisherman sends a line to the Philapdelhhia *Inquirer* complaining that the "stembotes that trafick in the delewer spile the shaddin bisness, with there splashin and runin in shoar." Our piscatory friend remonstrates against this, and takes the indisputable position that "shaddin were invented afore stembotes."

Grant County.—An article which we copy to-day from the Grant County *Herald*, setting forth the manifold advantages of that fine Western County, is well worth the attention of emigrants looking for a new home in Wisconsin.

An Old Pear Tree.—The N. Y. *Tribune* of Monday last, gives the following interesting history of an old pear tree now in full bloom, in the heart of the busy city:

The old pear tree, corner of Thirteenth-st. and Third av., is again in full bloom. For more than two hundred years, this tree has perfumed the *spring-house* with its white blossoms, and perhaps it has borne fruit nearly two hundred seasons. It was planted, if we rightly remember the date, in *1639*, by *Governor Stuyvesant*, at his farm so far out of the city of New-York, that wild enthusiasm could not have dreamed then that even the city suburbs would ever reach so retired a dwelling place for Pomona, while that tree should live to bear fruit.—But now look at that tree in its two hundredth year of bearing, and its surrounding, east, west north and south; instead of plowed fields, grass lots, orchards and farm buildings, there is one continued pile of brick and mortar. The City has invaded and obliterated the farm, leaving only this old pear tree as a solitary land mark of the olden time. The advancing line of brick walls and busy shops, has marched up to the old pear tree and gone by with its streets and squares and stone pavements, until thousands who live beyond talk about going down town, when they go so far toward the spot that was a town when that tree was planted, as where the old pear tree is now blooming as sweet and fresh as in its youth. Of all that looked upon and called it the old tree when it bloomed the hundredth time, not a single one will look upon its present bloom. It is blooming ever, but they have bloomed, borne fruit—good or evil—and gone forever.

☞ The following paragraph was handed to us yesterday, having been sent to O. Shepardson, Esq., in a letter from California, we believe. We had not noticed it in our exchanges:

What of the "Sea Serpent?"—The schooner *Sea Serpent* sailed from San Francisco on the 18th of February—upwards of six weeks ago, for San Pedro, and as yet nothing has been heard of her, although strict enquiry has been made along the coast. It is further feared she may have been lost. She was at sea during the severe gale that disabled the steamer *Goliah*. It has been hoped that the *Sea Serpent* may only have been blown to the northward, but that is not very likely. She was only out of this port about three hours, when the gale came on, and could scarcely be blown so far in one night that she could not get to some port in four weeks.—The vessel had a full cargo of freight in the hold and six mules, and a deal of moveable freight on deck. She carried about thirty passengers. In these circumstances, as she was running before a heavy sea and considering the little likelihood of having on the hatch, together with the moveable nature of the deck load, there can scarcely be any doubt but that she was struck by a heavy sea, and either swamped or capsized. The *Sea Serpent* was consigned to Alexander & Banning, San Pedro. The passengers were bound to Kern river. Amongst them were Captain Hogue and lady, a *brother of Judge Lake*, and many other well known citizens of San Francisco.

The Price of Beef Cattle.

We again call attention to the state of the cattle market. High as were the rates of three weeks ago, they had increased since then, and it is but a *few days* since beeves sold at $90 to $160 a head, averaging for all offered at least $100 each. In fact, all the best bullocks sold at rates equal to 15c. a pound. This is the highest market ever known in this city, and probably in any other of this country. The cause must be apparent to every one; the supply is not equal to the demand. The average weekly consumption last year was 3,257, and the supply this week is only 5,054—1,203 below the actual demand. The supply last week amounted to but 2,174, and with a single exception, the weekly supply has been below the average ever since the first of January. Choice cuts of beef will be retailed this week at 25 cents a pound, and how long those who buy to eat and eat to live can bear this, remains to be seen. It unfortunately happens that the price of mutton is even greater in proportion than that of beef, and thus is absolutely beyond the reach of many.

There is but little hope of any immediate improvement in these prices to the consumer, as there is at present an actual scarcity of beef cattle throughout all the country. The drain to California during several years, the former low prices in the West, before the introduction of railroads, and the neglect of farmers to raise cattle to meet the increased demand which railroad facilities occasioned,—these causes, taken in connection with the recent drouth and consequent increase in the price of corn, have combined to produce the present condition of affairs in our markets. And that they are not likely to improve soon may be gathered from the statements made by Western and other papers with reference to the *falling off* in the number of cattle which has taken place. Ohio papers state that in the County of Trumbull there were 23,000 cows last fall, and at the present time there are only 18,000. They have been lost during the winter and spring five thousand.

What is true of that country is probably true of many others in all the Western States. The inevitable result of this scarcity of stock will be the continuation of the present extraordinary rates; and those who begin to think they cannot afford to eat so much high-priced meat had better turn their attention to find some other substance for food. It is to be hoped we have now reached the highest figure of extravagant prices, but we need not hope to return, in our day, to the low prices which were formerly seen in this city.

Bad News from the Sault.—The Northerner came down yesterday with bad news from the Sault. The water was let into the canal a few days ago, when owing to the frosts not yet being out of the ground, or for some other cause, the embankments gave way, making a bad breach, which will probably take four weeks to repair and it is doubtful whether boats will be able to pass in less than six weeks. This is a very unfortunate affair for the interests of Lake Superior, as well as to this city.—[Detroit Advertiser, May 18.

GRANT COUNTY.

Commercial, Agricultural, Mining and Manufacturing Resources.

A glance at any perfect map, of a late date, with the counties of Wisconsin marked on it, must satisfy any person that Grant County occupies the finest Commercial situation of any county in this or any adjoining State. We have a river coast of one hundred miles, washed by the Mississippi and Wisconsin Rivers, upon whose waters float annually in boats, many millions of commerce and hundreds of thousands of emigrants, also, thousands upon thousands of rafts of lumber. Every six or eight miles of the river coast is provided with a good landing and warehouses for receiving grain and merchandise; and town roads in every direction are being provided to an extent almost incredible. The Illinois Central Railroad is completed nearly to the southwest *corner* of our county. This railroad terminates the farthest north and west of any other at present, and opens a perfect line of communication with the east for the entire Northwest. The Milwaukee and Mississippi Railroad is under contract from Madison to Prairie du Chien, passing through about thirty miles north of Grant County. The Railroad will be completed within a *few* months, and about all the means to pay therefor has been provided, safe and secure. This will give us a second communication with the east by the great British line of Railroads.

As to the Agricultural resources of Grant County, a region nearer perfection cannot be found in the West; we lack no part, whether of *soil, climate*, timber, water, rock or other essential. Lime exists largely in the composition of our soil, which is supported by a clay basis, so that our land is enduring as it is *fertile*.

Mining is a permanent and substantial interest, from which an annual cash revenue is derived, equal in amount to about $80 per head for each inhabitant of the county, or between five and six hundred thousand dollars. The mines pay larger the more they are worked, and when a better system of mining is adopted they will pay much better. The *lead product* of Grant County will always keep money plenty, no difference if every bank breaks from Maine to Texas. This resource can never be exhausted,—all mining done heretofore is mere scratching.

So far as water-power, building materials, centre of locality and facilities for intercommunication with distant parts are concerned, we are the best situated for manufacturing of any county and people in all the West. We make this sweeping declaration, not fearing contradiction, as what we say is plain on the map and statistic facts.

Timber is abundant in this county, though in places it is not well distributed, as in the south part. The rivers supply us with any amount of pine and other lumber, at cheaper rates than it can be had east or south. Every kind of building material, stone, and clay for bricks included, are plenty and of perfect quality. We have any amount of blue limestone—said to be the best rock material in existence, except marble; also plenty of lime and sand.

We ask of strangers an examination into our statements, and if any one is *found* untrue our columns are *free* for exposure.—Grant Co. Herald, May 14.

Terrible Accident.—On last Friday afternoon at the depot, in this city, Mr. Thomas Huggins met with an accident which terminated his life in about two hours after. We learn he was unloading from his dray a large plow, when the freight train was near. Standing between the handles of the plow, the train came upon him suddenly and unexpectedly. Catching one handle of the plow, it threw him between the cars, causing the other handle to pass through the lower part of the abdomen. His hips were also badly mangled, and he would have been killed instantaneously by the wheels of the cars, had not a friend seized and dragged him away. The poor fellow was conscious from the time of the accident until his death. During the paroxysms of pain from which he suffered dreadfully, it is said, he begged of those around him, to take his life, as he said it was impossible for him to live.

Physicians were called immediately, but his injuries were so *severe*, as to be beyond the aid of the most skilful.

Mr. H. was a young man in the vigor of life—an industrious and useful citizen, and leaves a wife and child to deplore their remediless loss.—[Janesville Standard.

Registered Letters.—The Postmaster General publishes instructions for the registry of valuable letters after the 1st of July.

Such letters, if the persons sending them desires, will, on payment of a fee of five cents, be registered in an account separate from that of the other mail matter, stating the date and name of the person and place to which it is directed. The Postmaster will then give the sender a receipt for it. The registered letters will be put in packages separate from others, which packages must be not only tied up but sealed. On their arrival at the place of destination they will again be recorded in a book kept by the Postmaster, and when delivered a receipt will be taken from the person receiving them. In all large offices the charge and care of registered letters will be given to one clerk, specially. In case any such letter is missing, the Department at Washington is to be informed immediately by telegraph if possible, and strict and vigilant means taken for the recovery of the letter and the punishment of the offender.—[Buffalo Commercial.

The Stevens House.—We do not know when anything afforded us so much satisfaction as to be able to announce that *this building is about to* "*rise from its ashes.*" Through the energy and industry of Dr. Mitchell and others, the stock necessary to be raised by our citizens ($10,000) has been subscribed, and under the *proposition* of Mr. A. Hyatt Smith, the building will be commenced forthwith. This announcement will not only afford pleasure to our own people, but will be a source of gratification to those of the travelling public, who have domiciled under its hospitable roof.—[Janesville Standard.

☞ We published a little poem entitled 'May,' by J. G. Percival, some time since. It was written many years ago. The *Wisconsin* seems to suppose that it is something new, and says it is worthy of Percival in his best days! All the Barstow and balance papers have copied it, and seem suddenly to have become enamored of Percival's poetry, since that gentleman has been appointed State Geologist. The manner in which his poetry is thus patronized is decidedly amusing.—[Madison Journal.

Oshkosh Flour.—The schooner *Merchant* sailed yesterday for Fond du Lac, loaded down with lumber and produce. *Part of her cargo* consisted of 250 bbls. Flour manufactured at the Oshkosh City Mills, and consigned to Portland, Maine.—This flour is of a superior quality, and will compare favorably with the best manufactured in the country. Only six years ago, the settlers hereabouts were obliged to procure the greater part of their supplies from abroad; now they send large quantities of their surplus to the *far down east*.—[Oshkosh Courier May 15.

Emigration.—Last Monday, a procession of nineteen covered wagons, loaded down to their utmost capacity with women, children and household furniture, passed through our city on their way west or north. Following after them were horses, cattle and sheep. Hardly a day passes during which long trains of wagons do not go by. If the other principle roads of the State are as thickly covered with emigrants as the ones in this vicinity, an unparalelled number of new settlers must be pouring into Wisconsin and the west. Most of these pioneers look like industrious, honest, and hard working men, who have *left their former homes*, because the promises and prospects of doing better in this part of the country were brighter than at home.—[Watertown Democrat.

Oswego Canal.—The sluice-ways were opened above the city and the water commenced flowing into the new section at about seven o'clock last evening and the channel will be full this morning. If no mishap occurs, probably most of the loaded boats will commence moving to-day, and be *fairly* on *their way* to *tide water* between now and Monday. This news will be hailed with great joy by the whole commercial community. Our elevators and mills on the east side will also commence running to-day. This is of vast importance, for there are probably 200,000 bushels of grain now afloat in the river to be discharged. The wheels will spin to-day tremendously.—[Oswego Palladium, 19th.

Lapointe Heard From.—The returns of the recent Judicial election in Lapointe Co, have been received, as follows:

For Samuel Crawford,	5
For James R. Knowlton,	16

These are supposed to be the votes at the election in April last; but as James H. Knowlton was a candidate against Crawford two years ago last September, it has been suggested that these are the returns for that election. At any rate it does not alter the result.—[Madison Democrat.

☞ We understand that Rev. Mr. Ashton has accepted a call to assume the pastoral charge of Grace Church (Episcopalian) in this place.—He is expected in June. We have also been informed that Rev. Mr. Miter, of Milwaukee, has accepted a similar call from the Congregational society at Madison.—[Madison Journal.

Wisconsin at the French Crystal Palace.—A. F. Carman, Esq., who recently left this place for Europe, was appointed by Gov Barstow, commissioner of Wisconsin to the French Industrial Exhibition.—[Madison Democrat.

Some Whiskey.—Bager and Silverman have just received 400 barrels of whiskey. Mr. Silverman informs us that every barrel with contents will be disposed of in less than a month. This is only one concern out of *thirty-nine* where spirituous liquors are sold in this village. Who are the consumers?—[Omaha Advertiser.

Andrew Marshall, the Negro Preacher.

A correspondent of the New York Recorder, writing from Savannah, says:—

On Sabbath morning I attended divine service at the Presbyterian Church, of which the Rev. Dr. Preston is pastor; he was absent, and his place was supplied by a New England minister. The building is very fine, of granite brought from Maine, and the interior is a noble temple.—In the afternoon I determined to hear the renowned Andrew Marshall, the veteran pastor of African Baptist Church. This soldier of the cross has a world-wide fame, and a very interesting notice of his pulpit services may be found in Sir Charles Lyell's travels. Mr. Marshall's church is a fair old building, and in its interior much resembles a New England old country meeting house.

I looked round upon the congregation, and noticed that the audience, without exception, was well dressed, the women chiefly wore head-dresses of Madras handkerchiefs, though many had bonnets, and most of the men wore gloves. Mr. Marshall, I should observe, is in his 100th year, his hair is as white as snow, his countenance mild, without any wrinkles to mark decrepitude or decay. His voice is one of great sweetness and power; he read his hymn without spectacles, and such reading! In sober truth, I know no Northern Doctor who can read as well. It was read as Stoughton used to read, and those who remember that style of giving out psalmody, will long to hear Andrew Marshall. I came to church expecting to hear a wreck of a preacher—a negro preacher. I found in the pulpit a master in Israel. Age has not touched his faculties, his mind is as vivacious, and its workings are as true and faithful as are the intellects of a man of 30 or 40 years of age. He preached for an hour an expository sermon on the man out of whom Christ expelled the devils who were permitted to go into the herd of swine.

Mr. Marshall's sermon will remain in my memory associated with the discourses of great men. The exposition was scriptural, argumentative, full of imagination and abounding in wit, yet all in keeping with the place. I was reminded all through the sermon of three great preachers in the old country, each eminent in his peculiar way. I *refer* to *Rowland Hill, Christmas Evans*, and William Jay. Marshall has much of the wit which corruscated from the desk of Surrey Chapel, while the graphic sketching of the Welch Demosthenes, and the admirable colloquial style of Jay are *found* all through his sermon. The noble preacher made more points of power in that hour, than I have heard in any sermon for five years. I regard him as the most astonishing preacher I have ever listened to, when his age, his social position, and his illiteracy are all considered. No pulpit in New York or Boston but would have been honored by such a sermon.

The limits of a letter will not permit me to give an outline of the sermon, but it will live in my memory, and its illustration would have been a stock in trade for a tyro in theology, and many a sprig of divinity. Mr. Marshall's voice is euphonious, his manner dignified. Nothing but his white hair indicates his age, and I should never have supposed him more than sixty-five, had I not been informed. I must not forget his prayer; it was man talking with God, reverently wrestling with God. He saw the portals of the city—he had been often at its gates and it seemed as if he knew the holy ones. Among the hearers were several white ladies and gentlemen, and I was glad to meet there with the Hon. Francis Granger and his daughter. They both unite with me in my high appreciation of the preacher, and Mr. Granger told me that he thought the reading of the hymn was one of the most impressive exhibitions of sacred oratory he had ever witnessed.

Mr. Marshall drove General Washington from Virginia to Savannah, and he observed that during the entire journey he never saw him smile.

Time's Changes.—The Albany *Evening Journal* copies from the Buffalo *Democracy* an account of the initiation of ex-President Fillmore into the rites and mysteries of Know Nothingism and makes it the subject of the following sharp comments:

Mr. Fillmore rose, from the House of Assembly to the House of Representatives, by what was believed, by the People, to be earnest opposition to Secret Societies and Slavery. He worked with us, shoulder to shoulder, as an Anti Mason, and kept *always a few paces in advance* as an Abolitionist.

But "for the sake of the Union" this patriotic Politician renounces Freedom and joins a "Secret Society;" and is ready, we doubt not, "for the sake of the Union," to take any other step that may be suggested as expedient. He is now, *ex gratia*, a Third Degree Know Nothing under the auspices *of Macomber & Co.*

A Letter from the South.

Correspondence of the Albany Evening Journal.

Natchez, (Miss.) April 27, 1855.

To the *Institution of Slavery every thing* hinges its knee here. Religion bows to it, and does its homage; while its ministers preach of Ham, of Slavery among the Old Testament Jews, and of the manifest wisdom and glory of God. Education cringes to it, and philosophises about the "unity of the races," and the "phrenological and anatomical developments of the negro," with a *clearness* and perspicuity, only equalled by the darkness of the Stygian bog. Politics cringes to its dictates, and politicians talk of Kansas and Nebraska as the Thermopylæ and the Marathon of "Southern rights."

Society knuckles to it, by the meanest of compliances, estimating its own value by the worth it puts upon its members, whose qualities are calculated by the number of "niggers" they own and the number of cotton bales they gin. Morality bends before it, and Planters lie down and cohabit with it. Affection, sympathy, and the natural ties of nature yield submissively to its inhuman behests, and white brothers and white sisters see their semi-colored half-brothers and half sisters sweat for them without dropping a *tear of pity, or see* them parted from them for gold, without a sigh of agony. The truth is, that Mrs. Stowe's picture of Slavery is to the reality as a *faintly colored portrait is* to the original. That canvass can not be dark enough, nor those colors bright enough to paint the likeness of Slavery so it will resemble the original, placed in however good and advantageous a light.

There *are* a thousand evils connected with Slavery, which I would like to describe, in the Journal by letter, but you could not write a letter here, either to the Journal or Tribune, without hazarding the liability of having your letter broken open, and then suffer a coat of tar and feathers and an economical ride or a rail for your temerity. I thank God, that William H. Seward *has been returned to* the Senate again for six years, whom I think to be the ablest man far in that body—and a half a century in advance of any other Statesman in the United States, in political wisdom and sagacity. Excuse this long *introductory letter*, and believe me to be,

Respectfully yours.

No More Liquor.—We hope that the sun sets to-night for the last time upon the state of Michigan, as a state wherein Intoxicating Liquors can be sold, with the *consent and sanction of Law*. To-morrow morning the Maine Law rules, thank God! To that time have many anxious hearts and weeping, waiting eyes looked—hearts and eyes of whose sorrows and tears we have had no knowledge. But it has all been, nevertheless.—Now once more comes hope and the promise of happiness into many homes whence peace had been driven. The *bow arches the dark clouds* again.

The liquor sellers, as far as we learn, intend to submit. A large meeting was held on Saturday night, we understand, but nothing definite was done. Another was held this morning, but what conclusions were reached we are not advised.—There will, undoubtedly, be a case started for the purpose of testing *the law in the court*, but until it is pronounced unconstitutional, no selling will be tolerated, and if we wait for *that* decision, we have the best of reasons for supposing that it will be a long way hence. The Mayor assures us that he shall carry it out to the very letter, and the mass of the people say Amen! Ah, but won't there be thanksgiving held to-night.—[Detroit Tribune, May 14th.

Presidential Candidates.—The Concord *Statesman* thus describes the leading Democratic aspirants for the Presidency:

"Mr. Buchanan is too penurious, and besides, cut his own throat by signing the Ostend document. Gen Cass has reached a garrulous old age. If in the Presidential Chair *his Messages would probably make from fifty to seventy-five columns solid brevier*. Douglas, beside his Nebraska infamy, carries a sort of sailor board[ing] house odor about him, caused by liquor and cigar-smoke."

Southern Wisconsin Rail Road.—We made a short excursion as far east as Juda—8 miles—on Monday afternoon, and found Mr. Dodge the engineer, making his way toward this place, where he expects to be on Thursday or Friday, at farthest. He is now running a correction line, after which he will put on the level and make out the estimates. Everything seems to be doing which can be done to forward the interests of the line.—Monroe Sentinel.

The Know Nothings Presented.—The Grand Jury of Buncombe Co., N. C., have presented Know-Nothingism as a nuisance. This does them credit, but it is not surprising. After the great number of speeches made for Buncombe, we have a right to expect an extraordinary degree of intelligence among its people.—N. York Tribune.

Pension Office.—Bounty Land Applications.—Whole number of bounty land applications, under the act of March 3, 1855, received at the Pension Office up to May 12th, 122,000. Number of applications received for the week ending 12th, 11,800. Whole number of applications acknowledged, 44,900. Number of applications briefed during the week ending May 12, 3,300.

POLICE COURT.—May 18.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

A warrant was issued against David Oldensburg, *charging him with stealing fourteen* cords of cord wood, the property of Frederick W. Alarding on the 18th of May. The case was adjourned to May 28th at 9 A. M., the defendant giving bail in the sum of $300,00 for his appearance.

A warrant was issued against E. F. Langdon charging her with stealing from the shop of Mrs. Wheeler on Wisconsin street, on the 17th of May, one piece of dress silk, and two pieces of barege of the value of forty dollars, the property of complainant.

Schoolmaster in Trouble.—Carl Eckhart, a school teacher in St John's school, second Ward, was tried and found guilty of an assault and battery upon Louis Breiel, a boy ten years of age, and fined $7,50 and costs, amounting in all to $12,19.

Chicago Liquor Pedlar Fined.—A man whose given name was John Smith, was arrested by the City Marshal on a warrant issued upon complaint of John Bechtel, charging him with selling liquor without a license. The defendant plead guilty to the charge of violating the ordinance, but claimed that he could not be fined as he had sold it at wholesale. The plea was of no avail, and he was fined $25 and costs.

The defendant was from Chicago, peddling whiskey &c, and, it appeared, crossed the track of some of the home dealers and was arrested. As this money, the fine, is from the Garden City, would'nt it be a good plan for the Common Council to appropriate it to help support the poor sent here from that city? To send paupers here first, and then liquor peddlars to supply the means for making more is pretty good "cheek," to say the least. However, Mr. Smith, can tell his own story when he gets back to Suckerdom.

Common Council.—A special meeting of the Common Council was held Thursday evening.—A petition was presented from the Draymen, for a reduction of their License fee to 50 cents, and from Engine Co., No. 3, for the annual appropriation of $100.

Ald. Rosebeck introduced a resolution of inquiry as to the contract for dredging the river.—Ald. Ludington urged that the matter should be promptly attended to, and expressed the belief that the present contractor had not fulfilled the terms of his contract, and that it *ought to be* broken up. Ald. Powers was for overhauling the whole *business*, and, on his motion, the contract, was referred to the City Attorney, with *instructions to report* at the next meeting whether it had not been violated.

A special committee was appointed to enquire, and report as to expediency of purchasing a new engine for No. 5.

Ald. Powers presented a resolution constituting and appointing the Common Council a Board of Health. Also another resolution instructing the committee to revise the ordinances to prepare an ordinance for the government of said Board of Health, and to report the same to the next meeting. Adopted.

Board adjourned.

Circuit Court.—The trial of Blake, et als., for the Burglary, *&c.*, at the Ten Mile House, occupied the Court during yesterday. It may probably end to-day.

Lumber from Canada.—The fine barque *Northern Light*, Capt. Middleton, hailing from Port Erie, Canada, arrived yesterday with a cargo of 170,000 feet lumber from Dunnaville, (at the mouth of Grand River), duty free under the "Reciprocity" treaty. This is the first arrival of the kind, but with the great demand for lumber which exists at present, and which is quite likely to increase, we shall doubtless record many such arrivals.

Barque Great West.—This vessel, whose valuable cargo we mentioned the other day, got out of harbor yesterday, and displayed her great spread of sail to the afternoon sun, as she made her way slowly northward against a head wind.

The schr. *Souvenir* was damaged somewhat by collision with the *Great West*, before the latter left the river.

Y. M. A. Library Catalogues.—Members and others who use the library of the Young Men's Association will find it a great convenience to possess a copy of the catalogue, a very complete edition of which has been prepared by the Committee, and may be obtained at Whittemore & Co's.

Large Sales of Wheat.—Between sixty and seventy thousand bushels of wheat changed hands yesterday at prices ranging from 1,57 to *1 60 for mixed, free on board*. The market was very animated, and the *Baltic's* news will give it additional impetus to-day.

Tall Rye.—Mr. Thomas Sugden, from Genesee, Waukesha Co., brought us yesterday from his farm, a stalk of rye measuring 2 feet 9 inches in height, and with the head fully formed. He says that he did not search for the tallest stalk, and that the field from which *it* was taken is nearly all as far forward.

New Railroad Depot.—The Milwaukee *Democrat* states that the Milwaukee and Watertown Railroad Company are *preparing* to erect a large Railroad depot, on a lot lying immediately north of the Milwaukee and Mississippi Railroad depot. The new building is to be two hundred and fifty feet long by forty in width, and is to be built in the most substantial way.—[Watertown Democrat.

The *Democrat* may possibly suppose that the Company is putting up a more costly building than is really the case. The edifice is only what is called a "platform," and though strong enough for its work, not of an expensive kind. The flooring was nearly all laid yesterday.

School Lands for Sale.—J. H. Crampton, Land agent, offers for Sale, on very favorable terms, 25,000 acres of choice School Lands. To persons looking out for good locations and desirous of improving them, this is a good opportunity. See Advertisement.

Collision with the Pier.—The steamer *Niagara*, in coming to Kellogg and Stronge Pier night before last, struck the North East corner of the Pier, doing considerable damage to the Pier, and receiving a good deal of injury herself, but proceeded on her passage.

Dr. Baker.—By his card in our leaded columns, it will be seen that Dr. Baker has an office at Concert Hall and may also be found at his residence.

Not Much of a Shower After All.—The rain, which set in so merrily about 9 o'clock Thursday evening, held up very shortly afterwards; hardly enough falling to lay the dust.

Sale Continued.—Rooney's sale of Damaged Dry Goods, Groceries, &c., at his Giant Auction Rooms, will be continued to-day.

For the Sentinel.

Messrs. Editors—No one acquainted with me, will accuse me of the practice of hanging around the Police office and Circuit Courts, or visiting the jail with a view of seeking business or employment. Nevertheless, I was day before yesterday afternoon sent for by William Jones, then in jail on a charge of arson, to come to his assistance as counsel upon his trial which had been set down for that afternoon. The persons in charge of the jail *freely* and speedily admitted me, and kindly placed their office at my disposal for a private and confidential interview with my *client*. I *found* that his case had not been prepared, and that he was not ready for trial and thereupon concluded to move the Court to mitigate bail (from $5,000 to $3,000) with a view to release him on bail, and enable him to get the necessary witnesses for his defence, and get a postponement of his trial for a few days for that purpose. Accordingly, he was yesterday released on bail, and the trial postponed to Monday next. So far all well. But judge, if you can, of my astonishment within half an hour after I supposed I had had a *private and confidential* interview with my client in prison, to have the District Attorney object to a postponement of the trial because the officers of the jail had just informed him that my chief object in asking for delay was to impeach the main witness of the state against my client! I made no *comment or* allusion whatever to the *villainy and treachery* of the officers *in eaves-dropping*, and carrying to the District Attorney the sacred and confidential revelations between a prisoner in custody and his counsel, but only replied—what of it? Is it not *competent* for us to impeach the State's witnesses if we can?

Here, Messrs. Editors, I would have let this disgraceful affair drop, if I had not just been met in the street by the State's chief witness against my client—*John Ryan*—who inquired of me if Jones had got his witnesses yet to impeach him. I replied that I had not seen Mr. Jones since his release from prison, and I did not know what witnesses he had. Thereupon Ryan remarked: "you will see the greatest crowd at the Court House to sustain me that ever you see; the Court House will hardly be able to hold them; I will show you what you will get if you undertake to impeah me." Calmly I answered, "I hope you will not get the county to *foot* the bill of your great crowds of witnesses," and thereupon passed on. Whereupon he yelled out, "yes, they will, or I will break the head of every man *in* the county; and yours too, you"—adding several opprobrious epithets, interspersed with oaths in equal number.

Now I have no objection whatever that John Ryan, (a constable, and therefore *peace officer*,) should threaten, or even attempt to break my head, *if* that be his game; but I write to *protest* against jail officers listening to confidential communications between counsel and the prisoners under their charge, or reporting what they might accidentally so hear, to the District Attorney. And particularly and especially do I protest against the doctrine that State's witnesses, and particularly such as John Ryan, should not be attempted to be impeached; and if threatened to be impeached, that he shall be allowed to subject the county to *unnecessary* expense to sustain him, and that if he cannot have his own way, he, a constable, and in virtue of his office, a *peace officer*, threaten to bully counsel in the just and legal discharge of their duties.

I am now pretty much of the opinion some time since and often expressed by many of our best citizens, that many of the *city officers and watchmen* are themselves guilty of more than half the offences committed, and *charged* to innocent men, in the hope of getting a *reward*, or high compensation for their services as pretended guardians of the public and private property.

Foreign and Domestic Dry Goods.—Dyke & Hoffman, at No. 65 East Water street, invite attention to their large stock of Dry Goods, Bonnets, Parasols, &c. See card in our advertising columns.

☞ We can hear of no violations of the Liquor Law yet. Doubtless, some is sold on the sly, but open trafficking is "done for." Nobody seems disposed to complain either, but all take it as a matter of course, and a pretty good thing after all. A goodly number of confirmed tipplers have a great deal of business calling them to canada just now, consequent upon the Reciprocity Act perhaps, so the ferry boats are profiting.—[Detroit Tribune May 16.

Detroit and Milwaukee Railroad.—Contractors on the division from this city to Ada advertise for workmen to commence chopping and grading immediately. The gentlemen having *the control*, we understand, have recently finished a portion of the Canada Railways, and will transport their stock and tools from that point to this; 500 choppers are wanted immediately at good prices.—[Grand Rapids, Ind.

Village property is coming up in price quite rapidly. We have heard of a number of sales at 75 per cent. advance on *last summer's prices*. And yet there is no speculation, because no inducements are held out to purchase unless they intend to settle here.

That is the true policy, and we hope our Real Estate owners will not swerve from it.—[Appleton Cresent.

The Empress Eugenie.—In the Paris correspondence of the *Procureur d'Anvers*, under date of the 22d ult., we find the following:

The Empress is enchanted at the idea of her visit to the East, and she is proud to find that the Emperor has ended by gaining every one over to his side. The journey to England fatigued her greatly; but she always endeavored to conceal its effects, from an apprehension that the Emperor would not consent to take her with him to the East. Whenever the sense of fatigue overpowered her, she hastened to say that that which tired her most was the continual efforts in public to which she was condemned. Yesterday evening, as she was speaking with enthusiasm of her approaching departure for the East, she added that there was only one thing that troubled her, in connection with this journey, and that was the idea of her stopping at Constantinople. "What would you do at Sebastopol?" enquired the Emperor. "would you accompany me about on horseback?" "No," replied the Empress, "but wherever there is suffering to assuage, have not women a sublime duty to fulfil. Whilst you would be at the head of your soldiers, I would be the leader of those meritorious women who visit the battlefield to attend upon and console the wounded."

MARINE INTELLIGENCE.

First Boats.—The canal boat *New York*, of the Troy & Western Line, was the first to arrive at New York from Buffalo.

The canal boat *R. H. Bell*, of the Union Transportation Co, the first boat to arrive at Buffalo, from New York, had on board merchandise for H. Yolck, Sheboygan, Drummond & Co., Fond du Lac; and Millard & Parker, Markesan, Wis.

Launched.—The schooner *F. B. Gardner* was launched from the shipyard in this city on Saturday last. She is a noble vessel, and sits upon the water like a duck. She was built by Mr. Gibson, who is hard to beat in this line of business, for Mr. F. B. Gardner, of Chicago, after whom she is named. Her dimensions are: 136 feet long, 36 feet 4 inches beam, 11 feet, 4 inches depth, and 426 tons bur then. Captain James Flood, an experienced sailor, is to command her.—*Sheboygan Journal*.

The *Henrietta* was at our landing on Monday evening last, having brought freight for Mallory & Bro., and others. She took down from here about 1500 pigs lead, 1900 bus wheat, and 900 bus corn.—*Potosi Republican, May 12th.*

MEXICAN MUSTANG LINIMENT.

From rich and poor, bond and free—all grades, colors and conditions, the same meed of praise is irresistibly given to this wonderful preparation. Thousands of bottles are sold and used daily, and but one universal opinion is uttered by all who use it, and that is, that no remedy ever before discovered, possesses such perfect healing and curative properties. It acts like magic in relieving pains of any kind, no matter by what caused, or how excruciating—sprains, dislocation of joints, bruises, cuts, burns, scalds, ulcers, cancers, rheumatism, piles, caked breasts or any pain, soreness, stiffness, or weakness of joints muscles or ligaments. The Liniment is equally applicable and equally effectual in giving immediate relief. Try it.

CAPITAL, - - - $2,500,000,

Guarantee Fund, $100,000, *Deposited with the Comptroller of the State of New York.*

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and at what Office it is their interest to insure.

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible; and Life Insurance, while it in no way interferes with, or undervalues these important institutions, has claims which no other system of insurance can have. Human existence must on consideration, enjoy a much higher estimate than worldly property.

While the representative of a family lives, (although, through misfortune, he may lose his *property*, he becomes bankrupt,) he supports his family; but at *his death*, dies also their means of support, unless he has saved them from want by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comforts during life.

If young, he annual payment will be light, and if insured with profits the policy will be constantly growing more valuable, though the premium is not increased.

Clergymen and others who have a stated and regular income, *should insure*, well knowing that, at their death their family may be left destitute,

Men engaged in mercantile or manufacturing pursuits ever varying and uncertain in their issues, *should insure.*

The farmer who has still a mortgage on his farm, *should insure, at least* to the extent of it, thereby enabling his family to pay off the debt in case of his death.

BOUNTY LANDS!!

BY THE LATE ACT OF CONGRESS, 160 ACRES BOUNTY LAND (deducting number of acres heretofore received, if any) are given to each Commissioned and non-Commissioned Officer, Musician, private, teamster and wagon-master, whether of the regulars, volunteers, rangers or militia, and to each officer, marine, seaman, clerk, and landsman in the Navy, who served in the War of the Revolution, or in any War in which this country has been engaged since 1790, for the term of Fourteen Days.

In case the person serving as above has deceased, his widow is entitled to the benefits of the Act.

If the widow has deceased, or is now married, the minor children are entitled to the benefits of this Act.

BOUNTY LAND for those entitled to it, and PENSIONS under the several Acts of Congress obtained by

DIGHTON CORSON,
Attorney and Counsellor at Law,
Juneau Block, East Water St, Milwaukee.

N. B.—Form 1, with full instructions, will be sent by mail to any person wishing to apply for Bounty Land.—The necessary papers can be executed by the applicant without leaving home.

Terms reasonable. mar23-d&w3m

Dr. F. introduces to this community the New Method of constructing Artificial Dentures on Platinum, called

DR. J. ALLEN'S

Continuous Gum Work,

combining cleanliness, great beauty, with life-like expression, strength, utility, and restoration of the form and contour of the face. This work is unequalled, and stands preeminently first, and will sooner or later take the precedent over the various kinds of Artificial Dentures manufactured in this or any other country. Specimens may be seen at his Room any time during office hours.

After twelve years experience in dental practice, Dr. F. takes great pleasure in warranting all operations in the mouth, such as Gold Stoppings, Gold Plates, Teeth on Pivots, Teeth regulated, cleansed and extracted, &c.

Strict attention will be paid to all diseases arising from or in any way connected with decayed teeth. Also, counsel given in reference to the management of children's teeth. Advice and counsel given without charge.

Arrival of the Steamship
BALTIC!
Advance in Breadstuffs!
Fourteen Days from the Crimea!
BOMBARDMENT OF SEBASTOPOL
SUSPENDED!
Enormous Loss of Life!
ATTEMPT TO ASSASSINATE
LOUIS NAPOLEON!

[SPECIAL DESPATCH TO THE SENTINEL.]

New York, May 18, 6 P. M.

Baltic arrived. Flour and Corn advanced two shillings, (44c.) Wheat sixpence (11c.)—Consols 88⅛.

Bombardment of Sebastopol suspended until *arrival of reinforcements.* Losses on both sides enormous. F. F. A.

[EXCLUSIVELY FOR THE SENTINEL.]

The Baltic's News.

New York, May 18, 6 P. M.

The *Baltic* arrived at 5 o'clock. The Allies are reported to be gaining ground. All the Russian outposts taken. Sanguinary skirmishes frequent. Many Russians taken prisoners.

Latest news from Sebastopol to May 4th (!) Emperor Napoleon narrowly escaped assassination on the 28 April. An Italian fired two shots at him, from personal revenge.

No assault has yet been attempted on Sebastopol, and bombardment had not produced effect anticipated.

MARKETS.—Consols 87⅞. Cotton active.—Flour advanced 1s a 2s, and Corn 2s. Market active.

The *Baltic* left Liverpool on the 5th, P. M., and reached her dock at a quarter before 6 this evening, bringing 105 passengers.

The siege was progressing, the bombardment was checked, if not entirely ceased, in order not to exhaust ammunition. Lord Raglan admits that the looked for results have not been produced.—The list of casualties to Allies was not heavy.

It was the general impression in England that the siege will be abandoned. Also that Kamiesh and Balaklava would be left to the care of a few troops, and the main part of the allied troops would endeavor to penetrate the interior so as to cut off supplies, and then surround the town.

Reinforcements for the allies were arriving.—The French reserve of 80,000 at Constantinople is expected to come up.

The allies' position is thought critical. The bombardment slackened on the 28th. The Russians were gathering near Sebastopol 100,000 strong.

Daily Telegraphs come from the Crimea.

The Russian official account is to the 28th, and represents the damage done as trifling, and repaired each night, while the skirmishes were generally successful.

Their loss from 11th to 15th is set down at 6 officers and 436 men killed, and 36 officers and 1899 wounded.

The English captured the first *rifle* pit on the night of the 1st, after a desperate fight. Col. Graham who commanded, was killed.

On the 2d an attack was made on the second pit, but almost immediately abandoned.

New York, May 18th.

It is said that the steamer of the Kinney expedition will positively sail to-morrow.

Further by the Baltic.

The *forts* at the north side of the harbor had taken part in the cannonade, carrying the shot clear north of the town into the line of the Allies.

During the first week, the English alone fired 2200 tons of shot and 500 tons of powder.

The total consumption of the Allies for the week amounted to about 6,000 tons shot and 1500 *tons* powder.

English Ministers do not communicate the news freely, but say they will exercise due discretion.

Lord Russell has re-appeared in Parliament.

LATEST FROM THE SEAT OF WAR.—A sharp engagement on the night of the 1st. The affair *brilliant for the Allies.*

PARIS, 4th.—It is reported to-day that on May 2d, the Allies took possession of some important Russian works after a fierce engagement.

On the 3d the Russians attempted to retake the same.

SEBASTOPOL, May 4th.—Wednesday night the French under Gen. Pallisier attacked the advanced works of the quarantine Bastion and carried them at the point of the bayonet, taking 12 mortars and establishing themselves in the *conquered position.*

On the following night the Russians made a sortie to recover their position, but were driven back after a bloody encounter.

An insurrection had broken out in the Russian Ukraine. At St. Petersburg everything was at famine prices.

The Board of Trade reports (English) show a falling off of £10,000,000. Metals show the greatest decline.

There is a *strong feeling* throughout the country against the Ministry, and indignation meetings had been held at Derby, Sheffield and other places, and a meeting of the inhabitants of London will be held, at which due administration reforms will be organized.

FRANCE.—The Emperor had a narrow escape from *assassination on* evening of the 28th ult. while on the way to the Champs De Elysees.—When near the Barriere D'Etoile, he was approached by a well dressed man with an action indicating a desire to present a petition. He had advanced to within 5 or 6 paces of the Emperor.

A policeman moved towards the man when a cab was rapidly driven between them, and in the interval the individual had drawn a revolving pistol, and discharged it twice without *effect*, and again shot after he was seized.

It is said that one ball grazed his hat. The man is an Italian. He was in London, and the great crowd prevented his making the attempt there.

No more formal addresses will be received by the Emperor except from British residents.

LIVERPOOL MARKETS.—On Monday, advices from the States caused holders to ask an advance. Corn sold freely at 48a49s.

Flour—improved demand. *On* Tuesday an advance was asked, which checked demand, and little was done.

Since then, market has been firm and quiet—and to-day the advance is only nominal. Western Canal 39s@41s 3d. Ohio 43s@45s@6d.—White Wheat 12@13s. Yellow Corn 48; White 45@48s 6d.

Weather dry and cold. Sales of beef at 92s6d a115s. Pork better demand. Bacon do—improved rates—44sa46s for long middles. Lard firmer at 49sa50s. *Not active.*

London Money Market.—The Bank has reduced rate of interest to 4 per cent. Money easier—consols 88⅞. American securities firm.

St. Louis, 18th.

Gen'l Gratiot died here to-day.

The Upper Missouri Sioux are said to be very hostile.

Heavy rains for some days past in Kansas.

NEW YORK MARKET.

New York 18th, 6.30 P. M.

Flour—We notice a strong desire to realize, and holders again submitted to a decline of 12½ cents per bbl.

Receipts not large—sales 2000 bbls Wisconsin Stone Mill, to arrive within two weeks, at 10,25. More desire to sell for forward delivery, but buyers and sellers apart in their views. Canadian—sales 1500 bbls at 10a10,50. Rye flour firm—sales 200 bbls 7,25 fine, 7,87½@8,87½ superfine. Corn meal firm—sales 300 bbls 5,18a5,25.

GRAIN—Wheat market flat—very little offering—Sales 350 bus *good* red North Carolina 250 Genesee offered at 2,80 to arrive, but millers' views far below these figures. Rye dull—more offering—distillers will not buy at present prices. Sales 250 bus at 1,70. A contract for 5500 bus to be delivered within the month at 1,30, was settled to day by seller paying buyer $1500.

Barley held higher without sales.

BUFFALO MARKET.

May 18, 6 P. M.

Market for flour dull and quiet—decline of 12½a25c has been established—sales 700 bbls at 9,25c.; 337½ for good Wisconsin—9,25@9,50 for ditto Ill.

Wheat good demand—supply limited—sale 3000 bush Chicago Spring at 1,90—1000 bush White Canadian at 2.30.

St. Louis, May 18.

The Sixty-first Session of the General Assembly of the Presbyterian Church commenced at the Union Church *yesterday.* There was a large attendance. Dr. Skinner, of New York, delivered the opening sermon. New York was selected as the place for the next meeting.

Buffalo, May 18.

A Fusion Meeting of Whigs and Democrats opposed to Americanism, was held last night, in order to take measures for organizing for the fall election and for electing a democratic candidate for Judge of the Supreme Court in June.

A fire occurred on Wednesday *morning* in the paper mill of Anderson & Co., at Dundas, C. W. Their mill and the Gore flouring mills were destroyed, with a large quantity of grain and several hundred cords of wood. Loss $45,000.

Boston, May 18.

The Governor's Veto of the Western Railroad line ($1,500,000,) was sustained by the House to-day, by a vote of 180 to 87.

Yesterday, before the Supreme Court in session at Ipswich, the case was commenced of Dr. Charles D. Brown *vs.* the New Haven Railroad Company, in which the plaintiff claims $20,000 for damages sustained in the Norwalk catastrophe. Able counsel is retained on both sides.

Philadelphia, May 18.

The hearing to-day, under the writ of *habeas corpus*, in the case of Col. Kinney, has been postponed at the request of defendant's counsel to Monday next, in order to give time for obtaining documents.

BUFFALO MARKET.

Buffalo, May 18-2 P. M.

Flour—limited demand and dull. Addition to stock light; sales 300 bbls common Wisconsin at $9,25@9,37½.

NORTH AMERICAN CIRCUS!

Magnificent and Enterprising Features for 1855

THE PROPRIETORS MOST RESPECTFULLY INform the Citizens of MILWAUKEE and its vicinity, that the above celebrated and superior Company will be exhibited at this City on

Monday & Tuesday, May 21 and 22,
FOR TWO DAYS ONLY!

In making the above announcement, the Manager would state that the Company is composed of a full and efficient corps of distinguished performers. One of the great features is the beautiful Female Equestrienne,

MLLE MARIETTA,

Whose graceful and daring riding during the past winter, in the eastern cities of New York, Philadelphia and Boston, has been received with the most distinguished approbation by the public. Also the King of Clowns,

MR. SOL. J. LIPMAN,

Who has gained the highest reputation in the United States and Europe. Also the great New Orleans Clown and Comic Jester,

PUSS HORNER,

The far famed European

ANTONIO FAMILY,

Who stand unrivalled in their performance.

MR. W. WATERMAN,

The celebrated four horse rider, representing a Grecian noble.

MR. H. BUCKLEY,

Whose Equestrian accomplishments entitle him the Mercury of the Ring.

TOM OSBORN,

The great bare back rider, and in his acts of Tumbling and Somersetting over the horses.

MR. S. L. BALDWIN,

In his celebrated feats of Balancing and Juggling with Balls, Knives, Rings, &c.

MR. W. ARMSTRONG,

In his celebrated Posturing tricks, never before witnessed in this country.

Together with numerous other Artists, whose names will be found in the Programmes of Performance.

THE STUD OF HORSES

Is the largest and most beautiful and highly trained in America.

Accompanying this Circus is the celebrated Brass Band led by

NED KENDALL.

The Pavilion will be found spacious—capable of containing Two Thousand persons with comfortable seats. The unparalleled approbation with which the above Company has been received in every city and town which they have thus far visited, has induced the proprietors to spare no pains or expense in producing a series of elegant and attractive novelties, which are offered to the patronage of the public.

Admission to Boxes, 50 cents; Pit 25 cents. Children under 12 years of age, to Boxes, half price. No half price to Pit.

Doors open at 1½ o'clock P. M. Performance commences at 2.

CAPITAL, - - - $2,500,000.
Guarantee Fund, $100,000, Deposited with the Comptroller of the State of New York.

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and at what Office it is their interest to insure.

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible; and Life Insurance, while it in no way interferes with, or undervalues these important institutions, has claims which no other system of insurance can have. Human existence must on consideration, enjoy a much higher estimation than worldly property.

While the representative of a family lives, (although, through neglect or misfortune his *property*, he becomes bankrupt,) he supports his family; but at his *death*, dies also their means of support, unless he has saved them from want by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comfort during life.

If young, the annual payment will be light, and if insured with profits, the policy will be constantly growing more valuable, though the premium is not increased.

Clergymen and others who have a stated and regular income, *should insure*, well knowing that, at their death their family may be left destitute.

Men engaged in mercantile or manufacturing pursuits ever varying and uncertain in their issue, *should insure*.

The farmer who has still a mortgage on his farm, *should insure*, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death.

Arrival of the Steamship
BALTIC!
Advance in Breadstuffs!
Fourteen Days from the Crimea!
BOMBARDMENT OF SEBASTOPOL
SUSPENDED!
Enormous Loss of Life!
ATTEMPT TO ASSASSINATE
LOUIS NAPOLEON!

[SPECIAL DESPATCH TO THE SENTINEL.]

New York, May 18, 6 P. M.

Baltic arrived. Flour and Corn advanced two shillings, (44c.) Wheat sixpence (11c.)—Consols 88⅛.

Bombardment of Sebastopol suspended until arrival of *reinforcements*. Losses on both sides enormous. F. F. A.

[EXCLUSIVELY FOR THE SENTINEL.]

The Baltic's News.

New York, May 18, 6 P. M.

The *Baltic* arrived at 5 o'clock. The Allies are reported to be gaining ground. All the Russian outposts taken. Sanguinary skirmishes frequent Many Russians taken prisoners.

Latest news from Sebastopol to May 4th (!) Emperor Napoleon narrowly escaped assassination on the 28 April. An Italian fired two shots at him, from personal revenge.

No assault has yet been attempted on Sebastopol, and bombardment had not produced effect anticipated.

MARKETS.—Consols 87⅞. Cotton active.—Flour advanced 1s a 2s, and Corn 2s. Market active.

The *Baltic* left Liverpool on the 5th, P. M., and reached her dock at a quarter before 6 this evening, bringing 105 passengers.

The siege was progressing, the bombardment was checked, if not entirely ceased, in order not to exhaust ammunition. Lord Raglan admits that the looked for results have not been produced.—The list of casualties to Allies was not heavy.

It was the general impression in England that the siege will be abandoned. Also that Kamiesh and Balaklava would be left to the care of a few troops, and the main part of the allied troops would endeavor to penetrate the interior so as to cut off supplies, and then surround the town.

Reinforcements for the allies were arriving.—The French reserve of 80,000 at Constantinople is expected to come up.

The allies' position is thought critical. The bombardment slackened on the 28th. The Russians were gathering near Sebastopol 100,000 strong.

Daily Telegraphs come from the Crimea.

The Russian official account is to the 29th, and represents the damage done as trifling, and repaired each night, while the skirmishes were generally successful.

Their loss from 11th to 15th is set down at 6 officers and 436 men killed, and 36 officers and 1899 wounded.

The English captured the first rifle pit on the night of the 1st, after a desperate fight. Col. Graham who commanded, was killed.

On the 2d an attack was made on the second pit, but almost immediately abandoned.

New York, May 18th.

It is said that the steamer of the Kinney expedition will positively sail to-morrow.

Further by the Baltic.

The forts at the north side of the harbor had taken part in the cannonade, carrying the shot clear north of the town into the line of the Allies.

During the first week, the English alone fired 2200 tons of shot and 500 tons of powder.

The total consumption of the Allies for the week amounted to about 6,000 tons shot and 1500 tons powder.

English Ministers do not communicate the news freely, but say they will exercise due discretion.

Lord Russell has re-appeared in Parliament.

LATEST FROM THE SEAT OF WAR.—A sharp engagement on the night of the 1st. The affair brilliant for the Allies.

PARIS, 4th.—It is reported to-day that on May 2d, the Allies took possession of some important Russian works after a fierce engagement.

On the 3d the Russians attempted to retake the same.

SEBASTOPOL, May 4th.—Wednesday night the French under Gen. Pallisier attacked the advanced works of the quarantine Bastion and carried them at the point of the bayonet, taking 12 mortars and establishing themselves in the conquered position.

On the following night the Russians made a sortie to recover their position, but were driven back after a bloody encounter.

An insurrection had broken out in the Russian Ukraine. At St. Petersburg everything was at famine prices.

The Board of Trade reports (English) show a falling off of £10,000,000. Metals show the greatest decline.

There is a strong feeling throughout the country against the Ministry, and indignation meetings had been held at Derby, Sheffield and other places, and a meeting of the inhabitants of London will be held, at which due administration reforms will be organized.

FRANCE.—The Emperor had a narrow escape from assassination on evening of the 28th ult. while on the way to the Champs De Elysees.—When near the Barriers D'Etoile, he was approached by a well dressed man with an action indicating a desire to present a petition. He had advanced to within 5 or 6 paces of the Emperor.

A policeman moved towards the man when a cab was rapidly driven between them, and in the interval the individual had drawn a revolving pistol, and discharged it twice without effect, and again shot after he was seized.

It is said that one ball grazed his hat. The man is an Italian. He was in London, and the great crowd prevented his making the attempt there.

No more formal addresses will be received by the Emperor except from British residents.

LIVERPOOL MARKETS.—On Monday, advices from the States caused holders to ask an advance. Corn sold freely at 48s49s.

Flour—improved demand. On *Tuesday an* advance was asked, which checked demand, and little was done.

Since then, market has been firm and quiet—and to-day the advance is only nominal. Western Canal 39s@41s 3d. Ohio 43s@45s@6d.—White Wheat 12@13s. Yellow Corn 48; White 45@48s 6d.

Weather *dry and cold*. Sales of beef at 92s6d a115s. Pork better demand. Bacon do—improved rates—44sa46s for long middles. Lard firmer at 49sa50s. *Not active*.

London Money Market.—The Bank has reduced rate of interest to 4 per cent. Money easier—consols 88⅞. American securities firm.

St. Louis, 18th.

Gen'l Gratiot died here to-day.

The Upper Missouri Sioux are said to be very hostile.

Heavy rains for some days past in Kansas.

NEW YORK MARKET.

New York 18th, 6.30 P. M.

Flour—We notice a strong desire to realize, and holders again submitted to a decline of 12½ cents per bbl.

Receipts not large—sales 2000 bbls Wisconsin Stone Mill, to arrive within two weeks, at 10,25. More desire to sell for forward delivery, but buyers and sellers apart in their views. Canadian—sales 1500 bbls at 10a10,50. Rye flour firm—sales 200 bbls 7,25 fine, 7,87½a8,87½ superfine. Corn meal firm—sales 300 bbls 5,18a5,25.

GRAIN—Wheat market flat—very little offering—Sales 350 bus good red North Carolina 250 Genesee offered at 2,80 to arrive, but millers' views far below these figures. Rye dull—more offering—distillers will not buy at present prices. Sales 250 bus at 1,70. A contract for 5500 bus to be delivered within the month at 1,30, was settled to day by seller paying buyer $1500.

Barley held higher without sales.

BUFFALO MARKET.

May 18, 6 P. M.

Market for flour dull and quiet—decline of 12½a25c has been established—sales 700 bbls at 9,25c; 37½ for good Wisconsin—9,25@9,50 for ditto Ill.

Wheat good demand—supply limited—sale 3000 bush Chicago Spring at 1,50—1000 bush White Canadian at 2.30.

St. Louis, May 18.

The Sixty-first Session of the General Assembly of the Presbyterian Church commenced at the Union Church *yesterday*. There was a large attendance. Dr. Skinner, of New York, delivered the opening sermon. New York was selected as the place for the next meeting.

Buffalo, May 18.

A Fusion Meeting of Whigs and Democrats opposed to Americanism, was held last night, in order to take measures for organizing for the fall election and for electing a democratic candidate for Judge of the Supreme Court in June.

A fire occurred on Wednesday *morning* in the paper mill of Anderson & Co., at Dundas, C. W. Their mill and the Gore flouring mills were destroyed, with a large quantity of grain and several hundred cords of wood. Loss $45,000.

Boston, May 18.

The Governor's Veto of the Western Railroad line ($1,500,000,) was sustained by the House *to-day*, by a vote of 180 to 67.

Yesterday, before the Supreme Court in session at Ipswich, the case was commenced of Dr. Charles D. Brown *vs.* the New Haven Railroad Company, in which the plaintiff claims $20,000 for damages sustained in the Norwalk catastrophe. Able counsel is retained on both sides.

NORTH AMERICAN CIRCUS!
Magnificent and Enterprising Features for 1855

THE PROPRIETORS MOST RESPECTFULLY INform the Citizens of MILWAUKEE and its vicinity, that the above celebrated and superior Company will be exhibited at this place on
Monday & Tuesday, May 21 and 22,
FOR TWO DAYS ONLY!
In making the above announcement, the Manager would state that the Company is composed of a full and efficient corps of distinguished performers. One of the great features is the beautiful Female Equestrienne,
M'LLE MARIETTA,
Whose graceful and daring riding during the past winter, in the eastern cities of New York, Philadelphia and Boston, has been received with the most distinguished approbation by the public. Also the king of Clowns,
MR. SOL. J. LIPMAN,
Who has gained the highest reputation in the United States and Europe. Also the great New Orleans Clown and Comic Jester,
PUSS HORNER,
The far famed European
ANTONIO FAMILY,
Who stand unrivalled in their performance.
MR. W. WATERMAN,
The celebrated four horse rider, representing a Grecian noble.
MR. H. BUCKLEY,
Whose Equestrian accomplishments entitle him the Mercury of the Ring.
TOM OSBORN,
The great bare back rider, also in his acts of Tumbling and Somersetting over six horses.
MR. S. L. BALDWIN,
In his celebrated feats of Balancing and Jugglery with Balls, Knives, Rings, &c.
MR. W. ARMSTRONG,
In his celebrated Portuguese tricks, never before witnessed in this country.
Together with numerous other Artistes, whose names will be found in the Programme of Performance.
THE STUD OF HORSES
Is the largest and most beautiful and highly trained in America.
Accompanying this Circus, is the celebrated Brass Band led by
NED KENDALL.
The Pavillion will be found spacious—capable of containing Two Thousand persons with comfortable seats.
The unparalleled approbation with which the above Company has been received in every city and town which they have thus far visited, has induced the proprietors to spare no pains or expense in producing a series of elegant and attractive novelties, superior to any offered to the patronage of the public.
Admission to Boxes, 50 cents; Pit 25 cents. Children under 12 years of age, to Boxes, half price. No half price to Pit.
Doors open at 1½ o'clock P. M. Performance commence at 2.
Evening performance—Doors open at 7; performance commence at ½ before 8.

Pains or Inflammation in Man or Beast.
RELIABLE EVIDENCE.

BLOOMFIELD, Mo., January 15, 1855.

Messrs. A. G. BRAGG & Co.,
DEAR SIRS: Allow me to add my testimony to the excellent properties of your Mustang Liniment, in all cases of burns or scalds. I had a son badly burned on his face and hands by powder. It was expected that he would be badly marked for life. We applied the Mustang [illegible] and [illegible] no scar, or mark whatever. My wife used it in a case of [illegible] and it had the same good effect.

Yours, truly, D. B. MILLER, County Judge.

[illegible] Feb. 1, 1855.

For the benefit of the afflicted, I feel it my duty to state [illegible] The inflammation had been so extensive, that the whole finger had become a mass of corruption, and the only hope of saving her hand and perhaps her life, appeared to be to have it cut off. As her general health was very delicate, the Physician advised us to try the Mustang Liniment a few days, till she could travel to a surgeon in [illegible], as it could do no harm, and might prevent mortification. To the astonishment of the doctor and myself, the pain soon ceased, the inflammation subsided, and the wound rapidly healed. The finger is perfectly well and sound. One of my boys was severely burned; the skin was entirely taken off from the knee to the ankle. The Mustang Liniment was freely applied and nothing else was used. The relief and cure were almost beyond belief; but a short time elapsed before the wounds were perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation. JAMES PHILIPS.

NOTHING NEW—BUT EVER TRUE.—It would be nothing new to say that the Mustang Liniment had been sold was now more used in the United States than any other preparation. But it would be true to say that it has been more uniformly successful in healing wounds, bruises, burns, cuts, and all manner of sores [illegible] well as piles, sprains, pains or lameness of the back, side or limbs, rheumatism, or any other remedy. These are facts that millions of persons know from having used it. We say this boldly, and base the assertion on the fact that sixteen million bottles have been used, and never heard a complaint against it, where it has been used as directed and used thoroughly. We deem it necessary occasionally to remind the people of these facts, to induce those to try it who may never have had an occasion to use it. One trial is all we ask the most incredulous—and such a trial will only cost 25 cents.

PRICES.—It is put up in bottles of all sizes, and retailed at 25 cents, 50 cents, and $1 per bottle. The fifty cent and one dollar bottles contain three times as much as the twenty-five cent size in proportion to their cost. The large bottles are the cheapest.

RHODES'
FEVER AND AGUE CURE,
OR,
Nature's Infallible Specific.

FOR the Prevention and Cure of Intermittent and Remittent Fevers, Fever and Ague, Chills and Fever, Dumb Ague, General Debility, Night Sweats, and all other forms of disease which have a common origin in Miasma or Malaria. This subtle [illegible] poison which at certain seasons is [illegible] inhaled at every breath, is the same in character wherever it exists,—North, South, East or West,—and will everywhere yield to this newly discovered antidote, which is claimed to be the greatest DISCOVERY IN MEDICAL SCIENCE.

This specific is so harmless that it may be taken by persons of every age, sex or condition, and it will not substitute for one disease another worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic and other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation.

The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or Bilious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have another chill, by continuing its use according to directions.

It will immediately relieve all distressing results of Bilious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laboring men by adopting it as a preventive will be free from Ague or Bilious attacks in that season of the year which, while it is the most sickly, is the most valuable one to them.

One or two bottles will answer for ordinary cases, some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

Price One Dollar. Liberal discount made to the trade. Trade circulars forwarded on application, and the article will be consigned on liberal terms to responsible parties in every section of the country.

JAS. A. RHODES, Proprietor,
Providence, R. I.

☞ SOLE AGENTS IN MILWAUKEE, GREEN & BUTTON, who will give prompt attention to orders, and for sale by dealers generally.

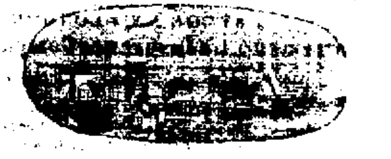
PATENT MEDICINES.



AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Bilious diseases, Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. [illegible] at the time of Colds, Feverish symptoms, and Bilious [illegible] [illegible] deep seated and formidable distempers which [illegible] all over the land. Hence a reliable [illegible] is of the first importance to the public [illegible] Pill has been perfected with consummate [illegible] that [illegible] An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything ever [illegible] has been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen who have testified in favor of these Pills, we may mention:

Prof. A. A. HAYES, Analytical Chemist of [illegible]

Hon. EDWARD EVERETT, [illegible]

[illegible] WINTHROP, [illegible]

[illegible] LAWRENCE, [illegible]

[illegible] FATHER [illegible]
